CARE OF BELLS

EVERY parochial church council in the country should have a copy of the latest publication of the Central Council—a handbook on the installation, preservation and repair of bells, bell frames and fittings, and it is only right and proper that a copy should be in each belfry for consultation by the towerkeeper and captain of the local ringers. The care of church bells has been constantly in the mind of the Central Council. This handbook was first published in 1891 in the days when Sir A. Percival Heywood was president, and there is no question that it fulfilled its purpose in bringing about a more watchful eye on the hundreds of pounds of Church capital invested in the belfry.

A second edition was published nearly 40 years later, and a third edition, the work of Messrs. E. H. Lewis, W. Osborne, F. Sharpe and E. A. Young, is available this week. In the light of modern experience and knowledge the first part of the handbook has been rewritten and a new chapter introduced giving fuller information about the forces set up by swinging bells and their effect on the tower. Greater stress has been laid on the importance of sound control, both inside and outside the tower, in view of the increased sensitiveness of the public to sound.

Cracked bells are rarely due to any cause but *carelessness*. The handbook points out a number of avoidable causes of cracked bells such as the dangerous and slovenly practice of clacking; the hollow worn in the sound-bow becoming too deep (this can be prevented by 'quarter turning'); chiming hammers or clock hammers either too heavy or fixed carelessly; unskilful hands 'bumping' a stay too strong to break. Clappers must not be permitted to drop by wear so as to strike below the centre of the sound-bows of their respective bells or the result may be fatal. This drop usually arises from neglecting to keep the pin of the clapper joint greased or by neglecting to rebush the clapper heads when necessary.

A popular misconception is that a ring of bells hung on up-to-date principles, with cast iron headstocks and iron frames, does not require any attention except to lubricate the main bearings. No matter how good the job is and how careful the bellhanger, nuts will slack. As to lubrication, 'a little and often' should be the motto. The gudgeons are not the only parts that need attention in this respect; the ground pulleys, the crown staple-pins on which the clappers swing and the sliders seldom get the attention they should.

The chapter on the means of controlling the sound of bells is of special interest in view of the frequency with which problems arise. The cure of too much sound outside the tower is not a great expense. The main principle is to allow the sound to escape upwards through spare windows or special openings on the roof of the tower, or, failing these, from as high a point in the belfry as possible. All belfry windows should be blocked to a point well above the lips of the bells when 'set'. In towns, where the evil is most acute, the most effectual way of damping the sound of bells is by almost entirely blocking up the sound-windows inside with 9 inch or 14 inch brickwork rising to the spring of the arch-heads; in the case of a square-headed window to within a foot of the top. In country places a milder measure than permanent blocking will probably suffice and may be found in 1 inch boarding lined with Cabot's Quilt or some other sound-resisting material, and filling up the window-space behind the louvres nearly to the top. Unlined boards are useless. Copies of the handbook can be obtained from the Hon. Librarian (Mr. W. H. J. Hooton), Osmington School, Tring, Hertfordshire.

TWINEHAM, SUSSEX.—On Nov. 1st, 1,260 Grandsire Doubles: F. F. Godsmark 1, P. F. Romney (first quarter) 2, Stella M. Wickens (cond.) 3, C. H. Wickens 4, G. A. Packham 5.

John Taylor & Co.

LOUGHBOROUGH

The LEADING BELL FOUNDERS

'THE RINGING WORLD'*The Official Journal of the Central Council of Church Bell Ringers*

EDITORIAL OFFICE: c/o Woodbridge Press, Ltd., Guildford, Surrey.

POSTAL SUBSCRIPTION RATES (prepaid): 4/3 quarterly, 8/6 half-year, and 17/- yearly. Orders, with remittance, to Mrs. E. K. Fletcher, The White House, Caister-on-Sea, Norfolk.

EDITORIAL COMMITTEE:

EDWIN H. LEWIS, M.A. (President of Council).

GEORGE W. FLETCHER (Hon. Secretary of Council), The White House, Caister-on-Sea, Norfolk.

A. A. HUGHES, J.P. (Hon. Treasurer), 34, Whitechapel Road, E.1.

MRS. E. K. FLETCHER.

EDITOR: T. W. WHITE.

NEW SUBSCRIBERS ACCEPTED

Tell your ringing friends that the new paper allocation will permit of additional orders for "The Ringing World."

Postal orders should be placed with Mrs. Fletcher, "The White House," Caister-on-Sea, Norfolk. Newsagents who have any difficulty should write to the Rolls House Publishing Co., Ltd., Brems Buildings, London, E.C.4, giving the name of the wholesaler.

Mr. C. E. Jeffries, whose 100th peal is recorded this week, has called first peals of Yorkshire, Belgrave and Pudsey Surprise Major for the Bedfordshire Association, and also the first for the Association, in 12, 14, 16 and 21 methods of Minor. His 100 should make good reading. Congratulations!

Mr. Stanley Gilbert has 'circled' Holywell, Hunts, tower.

We have had a request for the figures of the composition of the peal of Bristol Surprise Major rung at Melton Mowbray on Sept. 25th.

Alverstoake was the 150th different tenor that Mr. A. Patrick Cannon has 'turned in' to a peal. This was his 25th peal of Double Norwich Court Bob Major rung on 24 different tenors.

Mention has previously been made of the band of youngsters in the Wirral branch of the Chester Diocesan Guild. Their latest exploit is a peal of Cambridge Surprise Major at Bebington. With an average age of 20 they believe they are the youngest band to ring a peal of Surprise Major for the Guild.

Four of the band—T. Smith, A. W. Cusick, C. B. Pemberton and A. K. Humphreys—have only been ringing just over 12 months, but have all recorded peals of Minor 'inside' up to seven methods. C. B. Pemberton has rung 'inside' to a spliced peal of 18 Surprise Minor methods.

Visitors from Felpham, Goring, Storrington and Worthing joined with Chichester Cathedral band in ringing for the annual parish choirs festival in the Cathedral on October 30th. Before the service 1,260 Grandsire Triples was rung by R. Burchett 1, Myrtle Cass 2, Mrs. G. W. Tamplin 3, W. R. Falconer 4, E. Treagus 5, R. P. Wood (cond.) 6, H. C. Weaver 7, F. S. Smithers 8. First quarter on eight bells for 1 and 2.

BELFRY GOSSIP

Mr. James George is attempting another handbell peal—for his 95th birthday on Saturday, November 27th. We all wish the oldest surviving veteran ringer every happiness on his natal day. Mr. George's last tower-bell peal was at Enderby on August 24th, 1939, at the age of 85.

Messrs. R. Newman and G. Charge rang their 100th quarter-peal together at St. Mary Magdalene's, Holloway, N.7, on Oct. 24th.

Watlington, Oxon, tower was the 100th in which Mr. Walter F. Judge has rung a peal. The peal on November 6th was a birthday compliment to Mrs. F. A. H. Wilkins, the wife of the ringer of the seventh.

It was Victor Savage and not Frederick Savage who scored his first peal of Minor at Chilcompton, Somerset, on October 11th. The conductor proffers his apologies to all concerned.

Canon G. F. Coleridge celebrated his 91st birthday on Wednesday, Nov. 10th. On the advice of his friends he decided not to risk attending the College Youths dinner last Saturday. His letter stated that he was much better.

Armed with bell ropes and a large quantity of oil, seven members of the Lincoln Cathedral company, with John S. Mason, Birmingham, assembled on November to ring a peal on the magnificent heavy eight of Louth, Lincolnshire. It was over 28 years since a peal was rung on these bells, and after forcibly opening the caps to the bearings the Birmingham friend declared it seemed probable that it was over 28 years since these were oiled! Forethought was rewarded by a good peal of London Surprise in 3 hours 28 minutes. It was the 100th peal together for Charles McGuinness and John Walden, and the conductor's (Mr. Jack L. Millhouse) 50th peal this year.

MARRIED COUPLES' PEAL OF CINQUES

First in Ringing History

THE first peal on twelve bells to be accomplished by six married couples was rung at the Cathedral Church of St. Martin, Leicester, on October 30th. As reported in another column, it was a peal of Stedman Cinques and was rung at the first attempt.

The idea was suggested nearly two years ago, but the parties agreed to wait until October 23rd, 1948, for the occasion to be as near as possible to the silver wedding dates of two couples. Within a few weeks of the appointed date, however, it was found permission could not be given owing to the Leicester Diocesan Festival, and so the attempt was postponed by one week.

Families connected with the project and with their length of matrimonial commitments are as follows:

Mr. and Mrs. A. D. Barker, 26 years.

Mr. and Mrs. R. F. Deal, 25 years.

Mr. and Mrs. C. J. Matthews, 25 years.

Mr. and Mrs. H. J. Poole, 21 years.

Mr. and Mrs. J. Thomas, 11 years.

Mr. and Mrs. T. J. Lock, 10 years.

It will be noticed in the peal report that the ringing order was so arranged that each husband stood 'opposite' each wife, this apparently dispelling any fear of causing embarrassment. After a few rounds and the usual final preparations, the bells were rung into changes at twelve minutes past two o'clock, and each ringer, with full determination for success, maintained an even beat throughout until the final call was made at fifty-four minutes past five o'clock. The performance will be cherished by all the band, and a special word of praise must be accorded to the ladies, who rang their bells in excellent manner.

A suggestion was made, before the attempt, and with a certain timidity, that the peal be rung for the Ladies' Guild by electing the 'outsiders' as honorary ringing members, thus enabling the Guild to record its first peal on twelve bells. Although this was not unanimously agreed to, there is a hope that some relevant item will appear on the agenda paper of the next annual meeting of the Ladies' Guild. (Is Kate in retirement?)

Following the performance, Mr. and Mrs. Poole kindly entertained the party to dinner, after which mine host welcomed the visitors and said that no doubt all were pleased at the successful conclusion of the peal and that he thought Leicester Cathedral contained the best ring of twelve bells on which to attempt the record. Mr. Matthews replied with thanks on behalf of the visitors and remarked that he was sure never before had six husbands with their wives been together in the same room for over three hours with so few words being spoken (a silent tribute to the men, of course). Upon the dinner table was a 'wedding com-

pliments' cake, made by Mrs. Poole, suitably iced and decorated with a tower (christened Evesham by the party) and six pairs of bells. Mrs. Deal was chosen to cut the cake, which she performed unaided.

A social evening then ensued, the numbers being swelled by several local ringers, when handbells were rung in courses and touches up to Cambridge Surprise Royal and Stedman Cinques.

The couples from left to right, starting from the back row, are: Mr. and Mrs. Harold J. Poole, Mr. and Mrs. Thomas J. Lock, Mr. and Mrs. J. Thomas, Mr. and Mrs. Arthur D. Barker, Mr. and Mrs. Cecil J. Matthews, and Mr. and Mrs. Richard F. Deal.

The whole band would like to record, through the medium of the Press, its thanks to the Provost of Leicester Cathedral for permitting the attempt to be made, and the visitors would like to thank Mr. and Mrs. Poole for their most generous hospitality.

T.J.L.

DEDICATION

ALDRINGTON, SUSSEX.

The bells of St. Leonard's, Aldrington, Sussex, are now in good going order, having recently been retuned and rehung with all new ballbearing fittings by Messrs. John Taylor and Co., of Loughborough.

The rededication of the bells took place on October 10th at the morning service by the Bishop of Chichester. Immediately after the dedicatory prayers, rounds were rung by the six youngest members of the band as follows: Mary Brown 1, F. Tave 2, H. Brown 3, D. Hebbett 4, S. Brown 5, K. Sharpe 6. After the service, as the congregation were leaving, a touch of Grandsire Doubles was rung.

In the afternoon and for evening service touches of Plain Bob Minor and Grandsire Doubles were rung by the local band and visiting ringers.

North Staffordshire Assn.

A NOTICEABLE IMPROVEMENT.

'Taking everything into consideration, there has been a noticeable improvement in the standard of ringing,' reported Mr. W. Carnwell in his report presented at the annual meeting of the Association at Bucknall on Nov. 6th.

'Peals have been rung in the more advanced methods, including a peal of Cambridge Surprise Major at Audley, the first to be rung by a resident band of the Association.

Twelve meetings had been held during the year, all being well attended with an average of 41 per meeting. During the year the sub-committee had met and made certain recommendations in the revision of rules. These, it is hoped, will be submitted in January for approval.

The second annual outing was held on June 12th, when towers in the Wirral Branch area were visited. The report recorded with regret the death of Mr. J. Burrows, of Uttoxeter, who at one time was a very active member. Nineteen resident ringing members, two honorary members and eight life members had been elected.

Peals rung numbered 22 and nine members rang their first peal. Conductors were C. H. Page 4, N. R. Holland 4, C. S. Ryles 3, A. W. Hall 2, J. G. Cartledge, W. P. Dean, D. A. Anstey, J. Jolley, F. W. Grocott, jun., D. R. Whalley, John Worth, A. Moore and W. Carnwell one each.

The statement of accounts showed a credit balance of £66 2s. 6d. after making grants to Wolstanton, Uttoxeter and Newcastle.

Officers elected for 1939 were as follows: Chairman, R. S. Anderson; hon. secretary, W. Carnwell; assistant hon. secretary, W. Edwards; treasurer, E. Steele; auditor, J. G. Cartledge; Ringing Master for eight and ten-bell towers, F. Wilshaw; Ringing Master for six-bell towers, F. W. Grocott, jun.

Meetings approved for 1949 were: January, Newcastle; February, Longton; March, Cheadle; April, Audley; May, Leak; June, Kingsley; July, Stone; August, Cheddleton; September, Uttoxeter; October, Wolstanton; November, Bucknall; December, Stoke.

A vote of thanks to the secretary for his work was proposed by Mr. A. W. Hall, seconded by Mr. D. Whalley. The secretary, in his reply, thanked all members for their support and co-operation during the past year.

With the idea of getting all their members (most of whom are learners) through their first quarter, Farnborough, Hants, ringers attempt a quarter on the first Sunday of each month. So far this year they have had four successes out of eight attempts and each one, writes the conductor (Mr. G. Sidney Joyce), has had at least one first quarter.

LETTERS TO THE EDITOR

Tenors & the Speed of a Peal

Dear Sir,—About to 'tenor' my first peal last Saturday (which we eventually got, 3 hours 17 minutes), naturally I was very interested in what ringers like Mr. Simpson, Mr. Haynes and Mr. Hibbert have to say regarding 'the speed of a peal.' Whilst our tenor, 20 cwt., is hardly comparable to 28-30-31 cwt. tenors, I think a more important factor was missed—the relative weights of front end to back end and the size of wheels. In the case of our ring the first five of the front end are 4 cwt., the sixth 5 cwt., seventh 8 cwt., eighth 9 cwt., ninth 13 cwt., tenor 20 cwt.

Mr. Haynes says 'one of the secrets of good striking, even on light rings, is work on the part of ringers, especially by the back-enders; if the tenors are allowed to dawdle at their own pace the ringing is almost bound to become slipshod and irregular'; but does it not also apply equally when the tenors ring too close; is it not also a matter of timing? I searched the articles for some guidance and found that neither Mr. Simpson nor Mr. Haynes would sacrifice proper control for speed; plus the proper placing of the band, which our conductor, Mr. R. D. Langford, wisely did. Thanks to the writers and the Editor for articles that 'make you think.'—Yours faithfully,
W. FRANK STENSON.
Crewe.

A CONVERT TO SLOW RINGING

Dear Sir,—I confirm the time of the peal at Bowdon as three hours fifty minutes. It was rung without any idea of encouraging or discouraging the correspondence in 'The Ringing World.' It just happened as a result of my suggesting that slow ringing helps to improve striking, particularly on this particular ring of bells. It certainly demands that the band knows the method despite what some correspondents write. You may be assured that the peal at Bowdon was well and truly rung and quite well struck despite the time.

I am glad the Somerset tour has raised interest in the speed of ringing which will no doubt have its effect on striking. I personally, am converted to slow ringing as a result of the tour.—Yours sincerely,

C. KENNETH LEWIS.

Altrincham, Cheshire.

BRISTOL AT GILMORTON

Dear Sir,—Re the report of peal of Bristol rung at Gilmorton, Leicestershire, on Saturday, October 23rd, 1948, as first on the bells. The first of Bristol there was rung on July 23rd, 1937. Mr. F. W. Perrins called it. Why does a band make such silly claims? It's easy enough to find out.—Yours truly,

F. H. DEXTER.

Leicester.

SPliced SURPRISE MAJOR

Dear Sir,—While thanking you for publishing my 5,280 Spliced Surprise Major in the issue of November 12th, I shall be obliged if you will kindly point out that following 23645 the methods on the next line should read SSSCPPP instead of SSSSCPPP.—Yours faithfully,
A. J. PITMAN.

Port Talbot.

ARKLOW TENOR AND SEVENTH

Dear Sir,—I am pleased to say that the tenor of the eight at Arklow remains the same size, that is 22 cwt. But the peal rung there recently was, as your readers will have observed, one of Doubles. This peal was rung on 1, 2, 3, 4 and 5, with 7 covering, and the weight of the 7th is about 15 cwt.

Trusting that this will ease your correspondent's mind.—Yours sincerely,

FRED E. DUKES.

Jenkinson.

Nation-wide Appeals

Dear Sir,—A few years ago I sent out a country-wide appeal to all guilds and associations to take a retiring collection at branch meetings for a church in Northampton proposing to have new bells. Sixty-six branches responded, which I considered very gratifying. Similar appeals have since been sent out from towers in the neighbourhood of Ipswich and Somerset—and a very good idea too!

There are, however, those in the ringing fraternity who are very fond of bringing up the old bogey about 'charity begins at home, and if we have got any money to spare we should give it to towers in our own branches.' Ringers, least of anyone, should not think on those lines, seeing the hospitality they enjoy on outings in one another's areas.

Then there are those who think if they have given £10 out of their Guild Belfry Repair Fund towards a £700 or £800 job in their diocese they have done wonders, which entitles them to the right to control all the ringing of that tower, to say who is to ring peals. But this (to quote a former Vicar of my own parish) is a little element of 'trade unionism' which is dangerous and of which the Church has got to keep a watchful eye—it is the devil at work!

It is estimated that there are roughly 40,000 ringers in this country. If half that number gave only 1d. each the handsome total of £83 6s. 8d. would be produced. How encouraged this would make the promoters of any big scheme feel. And what if these schemes did crop up every month (as some fear)—what's a 1d. a month to any of us? Is it worth arguing about, even if it is in addition to the contribution to our own particular diocesan belfry repair fund? The wider issues surely outweigh such a narrow outlook.

Northampton. P. AMOS.

P.S.—At the time of writing I have in mind Grafton Regis, Northants (a parish of only 90 people), struggling to augment its bells from four to five and rehang the four. The Rev. H. B. Cartman is the Rector if any reader feels disposed to send a small donation.—P.A.

INFORMATION WANTED

Dear Sir,—Can anyone please tell me the total number of different true extents possible in Bob Minor and also in Kent Treble Bob Minor, including those with 6-5's at back?—Yours sincerely,
G. SIDNEY JOYCE.

130, Ship Lane, Farnborough, Hants.

OBITUARY

FLYING OFFICER MARTIN A. BLAMEY.

Burnham, Bucks, band have received news of the death of yet another of their pre-war boys' peal ringing band in the service of his country. Martin lost his life when his machine was blown to bits in mid-air whilst on duty with the air-lift to Berlin. It will be remembered that his brother Peter (another of the boys' band), also in the R.A.F., lost his life during the war.

Both learned to ring at Burnham when the family came from Uxbridge in 1935: they also joined Burnham choir. Against Peter's 15 peals for the St. Peter's Society, Burnham, Martin had scored 13, ringing his first, a local band peal, at the age of 15 on March 29th, 1937. His last peal was rung on April 10th, 1939, at Burnham, and was arranged for him and his brother on one of their R.A.F. leaves from Cranwell. Both boys were safe ringers and good strikers in many Minor, Triples and Major methods. They were both members of the Oxford Diocesan Guild and also the Society of Royal Cumberland Youths.

Martin's peal list is: Minor, four methods 1, six methods 1, seven methods 6; Bob Major 2; Kent Treble Bob Major 2; Oxford Treble Bob Major 1; total 13. Three of these were rung for the Oxford Guild and the remaining ten for the S.R.C.Y. G. G.

Mr. Robert H. Brundle

THE OLDEST COLLEGE YOUTH

The death of Mr. Robert H. Brundle, of Ipswich, on November 1st, at the age of 97, has deprived the Suffolk Guild of its oldest member. He was perhaps the oldest ringer in England, as he was born on September 18th, 1851. He was the oldest College Youth.

The possessor of a wonderful constitution, Mr. Brundle met with a chapter of accidents during the last few years. On several occasions after ringing a heavy-going tenor to a peal he has stumbled from the box and had to be revived with brandy.

Mr. Bob Brundle's first peal was Grandire Caters at St. Mary-le-Tower on October 22nd, 1878, conducted by Dan Prentice. He rang in the record peal of 16,608 changes of Oxford Treble Bob Major in 10 hours and 32 minutes at Debenham, Suffolk, on June 6th, 1892. The only survivor of this peal now is Frederick J. Tillett, of Ipswich, who rang the tenor.

On October 15th, 1938, he rang a peal of Cambridge Surprise Maximus at Ipswich in three hours 48 minutes at the age of 87, being the oldest to ring this method on twelve bells. For the Norwich Association and Suffolk Guild he rang 339 peals, including three on handbells. Besides these, he rang peals for other societies. In his long career he rang with five generations of the Tillett family in Ipswich.

The funeral took place at Ipswich Cemetery on November 5th, the service being conducted by Canon F. Mitton, Vicar of All Saints', Ipswich. A large number of his descendants attended and among the ringers present were Mr. Cecil W. Pipe (secretary, Suffolk Guild), Messrs. G. E. Symonds and W. J. G. Brown (St. Mary-le-Tower) and Mr. James Rose (St. Margaret's Society). The St. Mary-le-Tower Society sent a wreath as a tribute of esteem.

MR. HARRY BARTRAM.

The following appreciation comes from Mr. W. Smith, of Sydney, Australia:—

Mr. Harry Bartram was the driving force and source of instruction and encouragement to all ringers of the Framland Society when I joined as a youth in 1907 as a member of the Long Clawson band. He was a born instructor and conductor and had endless patience with young ringers who were eager to work and to study. In his own tower he was a wonderful host and enjoyed the company of visiting ringers.

I have happy memories of ringing with him in 1917-18 when I visited Melton as a member of the Australian Forces on leave from France. My last ring with him was a touch of Minor at a gathering of the Framland Society at Waltham in 1927—one of the highlights of my last holiday in England.

He did a great work for change ringing and his many ringing friends will hold him always in affectionate remembrance.

OUTING

NORTHAMPTON.

A party of 28 ringers and friends left Northampton at mid-day on November 6th for an enjoyable outing. At Deddingley, the coach was met by Mr. George Deedley and an hour's ringing took place on the fine eight. Chipping Norton bells were 'up' on arrival, the party being welcomed by Mr. H. Cook.

On the way to Witney, a collision with a woman cyclist was averted by the promptness of the driver. Twenty minutes' ringing at Witney preceded tea at the Rhead Cafe. Woodstock, the last tower, had no stay to the 5th bell, and ringing was here limited to 45 minutes at the request of a harassed father who was having trouble with his baby.

In most peals that have been rung at St. Iltyd's, Bridgend, since 1922, Mr. C. H. Perry has taken a rope. His friends regret to learn that he has had to give up ringing on account of ill-health and that Mrs. Perry is an invalid. The sympathy of a wide circle is extended to them both.

Norwich Diocesan Association

PEAL BOOKING FEE DEBATED.

Principal business discussed at a general meeting of members at Norwich on November 6th was an addition to Rule 9 in the Association's rules:—
 'A peal booking fee of 6d. shall be levied on each ringer taking part in a peal for the Association.'

Proposing this, Mr. Nolan Golden (Ringing Master) said that the standard of the annual report must be kept up and this needed more money. Most of the cost of the report arose from the recording of peals; therefore, a contribution from the ringers of each peal seemed the best way of raising the money.

A lengthy discussion followed, and despite the fact that the proposal had met with favour at meetings of each of the four branches, other suggestions were advanced for keeping the accounts solvent. These included raising the annual subscription to 3s., giving voluntary subscriptions or making the reports more economical.

It was pointed out that some individuals and towers were not regular in paying their annual subscriptions, and that if these all looked on it as a duty to pay regularly, without waiting to be reminded, the difficulty would be largely met.

Members eventually did not feel that any of the alternative methods of overcoming the difficulty were better than the original proposition, and an overwhelming majority voted in favour of the proposition of Mr. Golden, seconded by Mr. George Bailey, that notice to this effect be given at the annual general meeting on Easter Monday, 1949.

On the proposition of the general secretary (the Rev. A. G. G. Thurlow), it was agreed to hold the annual meeting in a Norwich parish hall if possible, where the matter could be discussed at greater length.

Thirty-nine members attended and ringing took place during the afternoon and evening.

MIDLAND COUNTIES GUILD

VISIT ASHBY, THE SCENE OF 'IVANHOE'

By the ruins of Ashby's famous castle stands the ancient but stately Parish Church of St. Helen, built in the year 1475 after William Lord Hastings had erected the castle nearby, immortalised in Scott's 'Ivanhoe'.

This church was the venue for the late autumn meeting of the above Guild, when upwards of 50 ringers were present from as wide an area as Wolverhampton, Leicester, Coleshill and Derby.

Ringing commenced at 2.30 p.m. Touches of Stedman and Grandsire Triples, Plain Bob, Kent Treble Bob and Double Norwich were successfully brought round before the company adjourned to Messrs. Radford's cafe for tea.

Following an excellent tea, Mr. J. W. Cotton (secretary), in proposing a hearty vote of thanks, spoke of the continued generosity of the Vicar (Canon Hanford) and Mr. E. W. Beadsmoore (captain of the local band), stating that Mr. Beadsmoore joined the Midland Counties Association in 1890 and for 58 years had been a stalwart of campanology in the Burton area.

After a shortened evensong, the Vicar conducted the ringers round this historical church, pointing out the finger stocks where open penance—mentioned in the Communion Service—was practised. The old priests' room and the valuable church plate, some of which dates back to Elizabethan times, were also inspected.

Further ringing, which included Cambridge Surprise, brought this most successful meeting to a close.

Mr. Albert Relfe has 'circled' Lamberhurst tower for the 12th time. The occasion was the wedding of his son to Miss D. V. Baker, of Pembury. There were two 'firsts' in this peal. Mr. C. A. Bassett, hon. secretary of the East Grinstead and District Guild, scored his first as conductor, and his wife her first peal.

From Zero to StedmanCinques

THE HIGH WYCOMBE TWINS.

In the summer of 1945 a little dark-haired member of All Saints', High Wycombe, Girl Guides visited the local belfry during practice. Encouraged, she came again, and after two or three visits she brought her twin sister—the living image of herself. That started the question of the mixed identities of Doreen and Sylvia Croker.

Solution unhappily came the following spring when Sylvia met with a serious accident to her

DOREEN AND SYLVIA CROKER.

right forearm while on the playing field. Undaunted, she pluckily continued to attend the weekly practices, watching her sister's progress and endeavouring to keep pace with her on the handbells. It was not until eight months later that she was able to take a rope again. Then began a keen chase to catch up with her sister.

Early in 1947 Doreen rang the treble to Holt's Ten-part of Grandsire at the third attempt. A few months later, with Sylvia on the treble and Doreen on the third, Grandsire Triples was scored. Two failures for Grandsire Caters followed; meanwhile Stedman had received a lot of attention, and a peal of Stedman Caters was rung at the first attempt, a second being rung for the Royal Silver Wedding.

By this time Plain Bob was well in the picture, and as a stepping stone to 12 bells a peal of Plain Bob Royal was obtained at the second attempt. After a little more 12-bell practice it was decided to attempt a peal of Stedman Cinques in September. This failed in the tenth course. The next attempt, on October 31st, as our peal column records, was successful.

All the peals were rung at All Saints'. Thanks are due to members from outlying towers who have done their bit to help these young ladies along their way. F.H.

LICHFIELD. — At the Cathedral on Nov. 1st, 1,259 Grandsire Caters: A. F. Sedgwick 1, J. B. Webb (first quarter) 2, P. Beresford (first Grandsire) 3, D. Beresford 4, Joan Beresford 5, E. Elton 6, A. A. Rackham 7, L. Hodgetts 8, G. E. Oliver (cond.) 9, M. N. Culling 10. First on ten by 6 and 8.

Sixty Years a Ringer

Veteran of St. Werburgh's, Kingsley, Staffs, is Mr. Henry Carnwell (79), whose 60 years' membership of the local tower was commemorated by the presentation on October 23rd of a pipe, tobacco and a cheque, the gift of ringers, the Parochial Church Council and friends.

The presentation was made following a short service, conducted by the Rector (the Rev. A. E. Adey), the gifts being handed to Mr. Carnwell by Mr. W. Swift (churchwarden). In returning thanks, Mr. Carnwell said that Kingsley belfry was the happiest in England. They all pulled together; there was no room for strife.

Later in the ringing chamber Mr. A. W. Hall (Cheadle R.C.) added his congratulations and those of the North Staffs Association. There were now, he said, three ringers in the district who had completed 60 years' service, viz., Mr. J. E. Wheeldon, of Norton, Mr. Wheeldon, of Bucknall, and Mr. Carnwell. He thanked Mr. Carnwell for the help he had given to many beginners. Mr. Carnwell was the only survivor of the band who rang the first peal on Kingsley bells in 1895.

Ringing during the day was of a high standard and included touches of London, Cambridge, Kingston, Wells and Durham Surprise Minor.

Mr. Carnwell has 44 peals to his credit, including Surprise in seven methods. His aim and ambition is to train his ringers for a regular Sunday service band, and he is always at his happiest in his belfry on Sunday mornings and evenings when there are no ropes to spare.
