THE USEFUL BOB BLOCK

By Edgar C. Shepherd

AMONG the many terms and expressions used in change ringing there are some that seem at first sight to belong purely to the theoretical side of the art and to be of interest and value only to the composer and student of compositions. Among such expressions is the Bob Block, a term that brings to mind immediately the investigations of W. H. Thompson, C. D. P. Davies and a host of other writers on Grandsire Triples, and may incline us to dismiss it as belonging to the higher mathematical considerations of change ringing and of no importance to the ordinary ringer and conductor.

The Bob Block (or B. Block as it is so often called) is, nevertheless, of great interest and of great practical value to the conductor, particularly to the caller of short touches.

A B. Block, as is probably well known, is the touch produced in any method by calling a bob at every lead or division. In some methods, such as Grandsire and Plain Bob, the B. Block is short; in some, such as Stedman, it is long; and in others, like Double Norwich Caters, it is long and involved and of very little practical value at all. The touch varies in length, of course, according to the number of bells, and in Grandsire Doubles is composed of two leads, in Grandsire Triples of three leads, in Grandsire Caters of four leads. The case of Kent Treble Bob and its sister methods is peculiar, for here the B. Block is always three leads whatever the number of bells.

The value of the B. Block to the ordinary conductor lies in its adaptability in the construction and lengthening of touches, and in Sunday service ringing it is a most useful ally. Consider its application to Grandsire Triples. If we start from rounds and call a bob we produce 752634. If, likewise, we start from rounds and call Single, Bob, Bob, Single, we still arrive at 752634, but this time in four leads. We shall, as it were, have spliced in three leads, and these three leads, if separated from the touch, will be seen to consist of a B. Block complete in itself and made up of the rows 572634, 465372 and 234765.

The very simplest consideration of the above will show the practical usefulness of this device of splicing in leads. It tells us,

in short, that in place of any bob we can substitute S.B.B.S., and so add three leads to our touch. Moreover, if this insertion or splicing takes place at a musical lead, then the music of the lead end will be repeated when the second single is called. The conductor of Grandsire will find a little experimental pricking and the insertion of B. Blocks very interesting and enlightening and perhaps a revelation of possibilities hitherto unsuspected.

To the Sunday service conductor, harassed by shortage of time, or wishful to extend his touch for a minute or two without previous preparation, the B. Block is a friendly and amenable companion.

THE MASTER TAPPER

OCCASIONALLY we publish details of enthusiasts who tap peals on handbells. But no enthusiast of this day and generation can equal the performance in that direction of Elijah Roberts, who, on March 23rd, 1837, tapped 19,440 Treble Bob Maximus at the Derby Arms, Whitechapel, Liverpool. The performance started at 4.19 a.m. and finished at 5.24 p.m. In an article on Elijah Roberts, the late William Snowdon wrote to the 'Ringing World' that at Birmingham in 1833 he tapped 5,016 Stedman Cinques. This peal he composed himself, but, doubtless to satisfy a great many ringers in an adjoining room, Henry Cooper, the well-known composer of early peals of Stedman Triples, acted as conductor. No less a ringer than Henry Johnson was present, and he heard every change, and was satisfied with the truth and accuracy of that unique performance.

In a letter to a friend on his performances, Roberts wrote: 'The first peal I rang was about 20 years ago (1807). . . . The number of changes was between 5,000 and 6,000 and was composed of nothing but Plain Courses, viz., Grandsire, Plain Bob and Treble Bob Triples; Grandsire, Plain Bob and Treble Bob Caters; Grandsire, Plain Bob and Treble Bob Royal; Grandsire, Plain Bob and Treble Bob Cinques; Grandsire, Plain Bob and Treble Bob Maximus. Also one and the last course was Treble Bob Sixteen, for which I don't know what other name to give it. Now this may not be considered of much note, but I assure you that to ring three different methods, and on different numbers of bell, and, as soon as one plain course is rung and the bells come round, to strike immediately into another from eight bells to sixteen is no joke.'

GILLETT AND JOHNSTON

LIMITED

No matter in which corner of the country you happen to be, as likely as not you will come across Gillett and Johnston bells or tower clocks.

Gillett and Johnston craftsmanship is embodied in an all-embracing service—as much in the preservation and restoration of old rings of antiquarian interest as in the installation of new.

BELL FOUNDERS
AND
CLOCK MAKERS
CROYDON

FRANK I. HAIRS.

JOSEPH T. DYKE.

HAROLD J. POOLE.

EDITOR: T. W. WHITE.

THAT EXTRA POSTAGE

Our reminder last week as to the 1s. 5d. extra postage due for the second half of last year produced 28 replies, which are gratefully acknowledged. There are still 717 subscribers who have not responded.

Enclosing a postal order value 4s. 3d. to cover extra postage, plus one penny for each peal he had rung so far this year, a Gloucester and Bristol Association ringer writes: 'I have calculated that if a penny was paid for each peal last year you would receive just over £73. I would suggest that the Editorial Committee consider charging a fee for publication of peals. It would still be the cheapest form of recreation or pleasure.'

A correspondent asks: Who was Hastings who gave his name to the Hastings stay?

The six bells of All Saints', Sapcote, Leics, are being rehung on ball bearings; Messrs. John Taylor and Co. have the work in hand.

The peal at Barcombe, Sussex, on July 28th, was conducted by Mr. C. John Piper and not by Mr. W. A. Kitchenside, as submitted to us.

Congratulations to that grand old Midland ringer, Mr. Adolphus Roberts, who has rung his first peal of Yorkshire Surprise Major at the age of 81.

In the peal of Grandsire Caters at Selby Abbey on July 28th, the ringer of the second was Mr. T. Herbert Foster and not Mr. T. Herbert Slater, as submitted to us.

Messrs. Leslie Barry and Charles Rouse have rung 25 peals together, viz.—Caters 2, Major 2, Triples 7, Minor 4 and Doubles 10. In these peals there have been at least 46 firsts.

The date of the handbell peal of Plain Bob Major at Kempston, published in our issue of August 3rd, should read Tuesday, July 17th, 1951, and not as submitted.

Two peals of Surprise Maximus were scored by the Ancient Society of College Youths during August Bank Holiday at Leicester.

The Sunday service band at Barthomley, Cheshire, rang a peal on August 11th in celebration of Arthur Allman's 50 years, John Brassington's 49 years and Eric B. Allman's 25 years as service ringers at the church.

BELFRY GOSSIP

Miss Pamela Steere, of St. John's, Croydon, has rung her first peal. It was at Paul, Cornwall, but none of the band knew this secret until after the peal, or that she had made some half-dozen attempts in her home district. The peal was a real Bank Holiday affair with ringers enough and to spare, and the band represented five counties.

Mr. R. F. B. Speed writes correcting the time of the peal of Yorkshire Royal at Twickenham, on July 14th to 3 hours and 40 minutes and not 2 hours and 40 minutes, as submitted.

A peal attempt of Stedman Cinques at South-wark Cathedral last Saturday failed in the last six sixes. It was being rung for the Surrey Association and conducted by Mr. C. H. Kippin.

Reg Woodyatt and George Large rang their 200th peal together in their own tower of Claines, Worcs, when a peal of Stedman Triples was rung there on August 11th. It was also the latter's 50th peal on the bells. In contrast, Harvey Homans, another local ringer, rang his first peal by ringing the tenor.

The Rev. F. Ll. Edwards, Rector of Kington Magna, Dorset, is asking his parishioners to lend him mouse traps owing to an infestation of mice. 'People willing to loan traps need not bother about cheese,' he adds. 'I shall be prepared to use my ration.' We wish our veteran member of the Central Council good hunting!

Enterprise was shown by the band in a peal attempt of Superlative at All Saints', Maidstone, in honour of the wedding of Mr. Walter H. Dobbie and Miss Sheila M. Hole. After 45 minutes the attempt 'went west.' Another attempt at All Saints' was out of the question owing to a service. The band decided to take a chance and go to Leeds. There was nobody in at the Rectory but the Rector's wife was found in the churchyard and she readily gave consent. The peal was successful.

KENT RINGERS' TOUR IN SOUTH SOMERSET

AN ENJOYABLE WEEK AMONGST FINE TOWERS AND FINE BELLS

TO most ringers, the county of Somerset conjures up in one's mind four things—magnificent towers, fine bells, strong cider and an efficient general secretary. From a ringing point of view it can be divided into two parts—North and South. The North has the monopoly of heavy 'eights,' but the South has a goodly number of heavy 'sixes.' After our Devonshire tour last year, it was originally decided to visit North Somerset, but as the Universities Association had 'beaten us to it,' we compromised with South Somerset, with headquarters at Yeovil from July 28th to August 5th.

Our party, which numbered 28 including non-ringers, was gathered together by Tom Sone, and all other ringing arrangements and towers were planned by Pat Cannon, with preliminary advice from Messrs. J. T. Dyke, general secretary of the Bath and Wells Association, and T. J. Setter, captain of Yeovil band. Twelve ringers came from Kent, two from Lincs, two from Northants, one from Berks and one from Surrey. A 31-seater coach was hired for the week, with proprietor Ernest Lush again in command, and left Paddock Wood, Kent, at 8 a.m., Saturday, July 28th, picking up en route.

TRAFFIC DIFFICULTIES

The organiser, who had just finished a week in Cornwall, was due to meet the party for lunch at Andover, Hants, at 12 mid-day. But as Andover was experiencing a really bad traffic hold up, it taking over an hour to pass through the narrow streets, he was not unduly surprised when they turned up at 1.30 p.m.! So it was 'bells before lunch,' and Messrs. J. A. Hill and N. V. Andrews were waiting to greet our party for ringing at the first tower (eight, 17 cwt.).

Many visitors to Andover have felt scared at the unusual entry to the belfry but no one commented this time, and there are plenty much worse in other places.

Owing to the traffic jam we were one hour late everywhere for the rest of the day and when we arrived at Shaftesbury St. James', we learnt that someone had waited nearly an hour, and then gone home, so we carried on to Henstridge, Somerset (six, 19½ cwt.), where we were joined by 'Joe' Dyke. The bells are a fine ring, though somewhat noisy in the ringing chamber. Our last call for Saturday was Milborne Port (eight, 28½ cwt.). These are a really grand old eight but the third required so much pulling to keep it up that eventually the rope broke, so we finished up with 120 Grandsire Doubles on the back five! Yeovil was reached at 8.45 p.m. and we soon settled into our 'digs' and enjoyed a well-earned sleep.

On Sunday morning Messrs. T. J. Setter and T. Marks were waiting to welcome us to St. John's, Yeovil (ten, 40½ cwt.), and we enjoyed Grandsire and Stedman Caters, Plain Bob and Treble Ten on the fine ring. After ringing, everyone attended service. The programme for the afternoon was a visit to two 'sixes' and two 'fives.' The first tower was Montacute (six, 24 cwt.), and Mr. V. Farthing and the Vicar met us. These bells are considered locally as something of a problem ring as the sway of the tower tends to upset good striking. However, a good course of Cambridge brought forth praise from Mr. Farthing and the writer has ambitions for 'first peal on the bells' sometime, though it will be hard work. Tintinhull (five, 13 cwt.) go well and 'Tom' Setter joined us for a new tower. We returned to Montacute for tea at the famous Elizabethan mansion and enjoyed a stroll through the beautiful grounds.

For Evensong, we were privileged to ring at Stoke-sub-Hamdon (six, 18 cwt.). The Vicar, the Rev. D. Ballard, Mrs. E. S. Powell, Mr. Jack Drew and the local band were waiting to welcome us. All of them joined in with us for Cambridge, Kent, Plain Bob and Grandsire on

a splendid ring with a very nicely-kept ringing chamber. Once again we all stayed to service. Our last tower was Odcombe (five, 13 cwt.). The Vicar and five of the local band met us. The bells hang in a central tower, with a short draught, and require striking.

PEAL RINGING COMMENCES

On Monday we started our peal operations. The first attempt was to be at Winsham (eight, 14 cwt.), and we were met by Mr. Pym, local captain, and 'Joe' Dyke, who was anxious to score a peal in a new Somerset tower. The bells were cast in 1894 from a heavy ring of five by Mears and Stainbank, and the ropes hang in the centre of the church. As the choir sing among the bell ropes, the local band have to carry four heavy seats into the chancel every time they ring, which is twice every Sunday, at least.

Three peals were rung for the opening ceremony in December, 1894, Grandsire, Stedman and Double Norwich, and as far as the writer knows, none have been rung since though there have been many attempts recently. A start was made for Double Norwich Court Bob but after 2 hours and 30 minutes' good ringing, a shift course necessitated 'Stand' being called. This was a big disappointment to all concerned, as most of the bells required much pulling and perspiration flowed profusely! The ringers were F. Macey 1, C. A. Bassett 2, E. G. Orland 3, M. S. Cloke 4, R. W. Rex 5, G. Kenward 6, J. T. Dyke 7, A.P. Cannon (conductor) 8. The conductor is looking forward to finishing off that one in the cooler weather!

Those not ringing went over to Thorncombe (five, 20 cwt.), where the Vicar, the Rev. G. Grovø, stood everyone a drink in the 'local,' and Hawkchurch (six, 11 cwt.), where the bells 'go' well, though noisy.

After a good lunch at Gills Cafe, Chard, we walked to Chard (eight, 23 cwt.), where Mr. Ralph J. Gillard, who had been most helpful in local arrangements, was waiting to meet us. The bells are a good eight, rung from the ground floor and, until our visit, only two peals of Major had been rung on the bells, of which the writer rang the tenor to the first in June, 1937. Superlative was duly brought round in 3 hours and 16 minutes, and our two Lincolnshire friends were very pleased to score their first peal of Surprise.

Meanwhile the remainder of our party, accompanied by Ralph Gillard and Joe Dyke, visited three towers well off the beaten track. It is possible that the change-ringing on two of them, at least, was the first on the bells. At Combe St. Nicholas' (six 16 cwt.), the Vicar, the Rev. W. T. Taylor, gave us a hearty welcome and Cambridge, London, Double Court, Plain Bob and Grandsire were rung. Next came Whitestaunton (five, 12 cwt.), rung from the ground floor, and where the writer recalled lashing a bell, while learning, in 1929! And lastly, down very narrow lanes, Wambrook (five, 9 cwt.), where the fourth was thought to be loose on the stock and ringing was limited to two leads of Grandsire!

After tea with the peal band we made for Chaffcombe (five, 13 cwt.), where the writer was very pleased to meet the Rector, the Rev. P. D. Preston, brother of an old school friend of his at Chard, 1928-1930. For those who really enjoy visits to fresh towers, it is always good fun to visit five-bell towers, and the local ringers are pleased too. Perhaps sometimes the 'go' of the bells is not all that could be desired, but it is a good thing for those whose own bells are a modern ring, to find out under just what sort of conditions hundreds of loyal ringers have to perform Sunday by Sunday. A quick run back to Yeovil, with the addition of Kilby Holtom, who had arrived at Chaffcombe, enabled several to take part in Stedman Caters at the local practice.

THE FIRST 'DOUBLE'

Tuesday morning was booked for two peals, and tower-hunting in the afternoon. Punctually (for a change!) the coach arrived at Martock (eight, 25 cwt.) and Mr. F. Strickland, deputy for Mr. Fred Farrant, who had made all arrangements and was away on holiday, was waiting to open the belfry. The interior of the church was much admired; this, in the writer's opinion, must be one of the finest Perpendicular interiors in the country. The bells are a pleasant eight, and Cambridge was brought round in 3 hours and 15 minutes, Geoffrey Waters performing well again for his second heavy tenor of the week.

While this was in progress the remainder went over to South Petherton (eight, 24 cwt.) to tackle the 'first peal of Major on the bells.' The local captain, Mr. W. Harwood, and the Vicar met us and wished us good luck. The bells hang in an octagonal central tower and the tenor, cast by Bilbie, 1721, is a particularly fine bell. A really excellent peal of Plain Bob was scored with not undue effort and Mr. Jack Drew congratulated us on our striking. Incidentally, the belfry is large, well lit and has a good circle of ropes.

We all met together for lunch at the Railway Hotel, Martock, before starting a tour of five towers in the afternoon and evening. First on the list was Kingsbury Episcopi's (six, 19 cwt) fine tower and bells, and then came Huish Episcopi (six, 16 cwt.), with an even better tenor, one of the best in the county. Next on the list was Somerton (six, 20 cwt.), with another octagonal tower. We were told by the verger, Mr. Rolls, that there are two practice nights, for ladies and gents! Our visit coincided with the ladies' night and some of us thought of staying but, of course, only to see how ladies handled a ring of six with a 20 cwt. tenor!

However, we were behind schedule, and, after tea, continued to Charlton Mackrell (six, 14 cwt.), where Mr. E. C. Eades was awaiting us.

These bells, hung in a central tower, were rung to Double Oxford, Single Oxford and Double Court as well as Plain Bob, but the tenor was certainly a handful! The last ring of the day was Ilchester (five, 11½ cwt.), with another octagonal tower. The town is of Roman origin and is situated on the Fosse Way. The bells, rung in 1938 by Gillett and Johnston, go really well. Before departing, a well-known heavy bell-ringer won 1s. by drinking straight off, with no pause, two pints of cider, much to the surprise of some of the locals!

A DAY IN DORSET

To please our non-ringers, an opportunity to smell the sea air was given on Wednesday. An earlier start was made and Weymouth reached by 9.20 a.m. We soon found Wyke Regis (eight, 16½ cwt) and Mr. E. J. Ladd, of Tunbridge Wells, and Mr. Stedman, local captain, greeted us. The belfry, with a door leading out on to the roof of the church, contains a pleasant ring, rung before the last war by Mears and Stainbank. Double Norwich was duly completed, this being the 200th tenor which the writer has 'turned in' to a peal. Those not ringing enjoyed a trip to Portland Bill and a view of several battleships.

Our first tower of the afternoon was Upwey (six, 9½ cwt.). The Vicar, the Rev. A. S. Bryant, was delighted to meet Kent ringers, enquiring if anyone came from Marden. Geoffrey Waters, captain of Marden, and Tom Sone, of the next village, were duly introduced to him. This is a very pretty village, with a famous wishing well and it was regretted that longer time could not be spent there. A ten-mile run over undulating country with magnificent views brought us to the prettily-situated church of

(Continued on next page)

KENT RINGERS' TOUR—Cont.

Litton Cheney (eight, 16 cwt.) The bells are an old six, with two trebles added in 1950. Unfortunately, the old bells have not been retuned and the result is a very strange mixture of music! The entry into the belfry is on to a gallery and then down some steps. The local ringers obviously look after their ringing chamber, as there are several clusters of red roses around the walls. The Rector, the Rev. S. Daniel, very kindly telephoned to Bridport to fix tea for us, a gesture which was much appreciated, and while this was being done, a fair course of Bristol was rung, the only one of the week.

Continuing to Bridport (eight, 21½ cwt.), we rang Special Cambridge and Superlative on a really good octave and, after tea, visited Netherbury (six, 20 cwt.), a fine old six, the heaviest in the county, where two local ringers welcomed us for Cambridge and Double Oxford. The last tower to be visited was the very fine one of Beaminster (eight, 24 cwt.), and the equally fine bells were rung to Yorkshire and Double Norwich as well as Stedman and Grandsire. Mr. E. P. Bailey welcomed us and joined us in Double Norwich Court Bob. Also, listening outside, was Mr. Joe Barrett.

ANOTHER 'DOUBLE'

One of the pleasures of a ringing tour is the warm welcome one usually receives at the various churches. Mr. G. H. Pike, captain of Crewkerne (eight, 22 cwt.), was unable to meet us on Thursday, owing to business, so Mrs. Pike was there to greet us and unlock the tower. We should like to thank both of them for their excellent arrangements for lunch at the 'George,' which was much appreciated by everyone. Joe Dyke was waiting for us, and the peal of Double Norwich which followed gave him a new tower in Somerset for a peal, his 98th in the county. The bells are a handy ring and can certainly travel! J. T. D. asked the band to 'make the pace a bit brisker' They certainly did, and gave Joe a wet shirt, but a good peal was rung.

After lunch it had been the original intention to attempt a peal at Ilminster. However, owing to the bad state of the bell frame, permission was cancelled, so Mr. J. T. Locke very kindly got permission for Drayton (eight, 19 cwt.). The bells, rung from the ground floor, are a fine lot and Plain Bob was rung to enable one of our lady ringers to score her second peal. The composition by the writer and also the 5.024 rung at South Petherton by Tom Sone were both rung as compliments, and with many thanks, to the organisers.

During the day six 'extra' towers were visited. In the morning the first one was Haselbury Plucknett (six, 6 cwt.), rung from the ground floor, and the Vicar, who has a keen sense of humour, gave us a happy welcome. Next we went over to Hinton St. George (six, 14 cwt.) with another central tower and some very fine monuments to the Poulett family. While the Drayton peal was in progress, we visited Shepton Beauchamp (eight, 12½ cwt.) and Barrington (six, 15 cwt.). At the former tower Mr. Reg Beale had been waiting patiently for us and joined us in Stedman Triples. We also rang a good course of Yorkshire, but although the bells are light, they certainly require ringing, owing to tower vibration. At Barrington, the local captain, Mr. A. Bond, proved that, given regular attention, a 15 cwt. tenor can 'go' like a bell of three cwt. and this after no bell-ringer has touched it for 50 years. The writer has seldom rung a bell, in plain bearings, requiring less effort.

Joining up with the successful peal band we still had two more towers to visit. At Kingstone (six, 11 cwt.) the bells are rung from the chancel steps, and Mr. T. Hill joined us in Plain Bob and Grandsire. Unfortunately at Seavinton St. Mary (six, 7 cwt.) we rather disgraced ourselves! The front bells are somewhat light, and an experienced ringer broke a stay! How it happened, we are not sure, but

the local ringer who met us seemed rather disgusted! 'Suppose you're used to heavier bells,' and 'We never break any stays, only with learners,' were two of his comments!! However, names and addresses were left with the Vicar, and any expense incurred will be duly settled!

A GRAND PEAL

We knew we were due for an enjoyable morning at Ditchat (eight, 24 cwt.). The writer had told everyone 'Taylor's best, 1921—equal to anything in the country for their weight.' And the peal of Yorkshire which resulted gave great pleasure to those taking part and also to those listening to these magnificent bells. The central tower ringing chamber allows the bells to be heard in the ideal volume for peal ringing. Mr. Albert Lintern let us in, locked us up, and let us out when we'd finished. Mr. H. C. Lintern had very kindly fixed us up for another splendid lunch at the 'Green Tree' Inn, and Joe Dyke again joined us. Those not ringing in the peal had an interesting morning at Castle Cary (eight, 15 cwt.), where they were met by Mr. E. F. Creed, and West Lydford (six, 14 cwt.), where the Vicar gave his permission at short notice.

The treat in store for the afternoon was a ring on the grand new Taylor ten at Evercreech (tenor 21 cwt.), but before this we slipped over to try the very fine six at Bruton (tenor 25 cwt.). Mrs. White, wife of the captain, opened the tower for us, and we enjoyed Cambridge and Double Oxford. Back to Evercreech to meet Harry Sanger, and we regretted that, owing to local conditions, permission could not be given this time for a peal attempt. However, we enjoyed Grandsire and Stedman Caters and an attempt for Cambridge Royal. The tower, over 120 feet high, is one of the best in Somerset.

As we were behind in our schedule, tea was given a miss, and we continued to Wincanton (eight, 15 cwt.), where Mr. J. Chilcott had been waiting some time, and joined us for Grandsire and Stedman on the new ring, fairly recently augmented, and rung from the ground floor. When we arrived at North Cheriton (five, 9 cwt.), we found a choir practice in progress and most of us joined in the singing. In fact, it was quite a job to find enough to ring! Perhaps it was because of the attractive lady organist! We also met an old gentleman who had been a ringer at this church for 67 years, which must be nearly a record. Our last tower for Friday was Charlton Horethorne (eight, 16½ cwt.), with a well-kept ringing chamber but a rather 'dead' tenor. Incidentally, this was the writer's 1,376th tower.

KENT MEN'S TRIUMPH AT SHERBORNE

Our last day was the heaviest of the week. We started for Treble Bob at East Coker (eight, 13 cwt.), but too many late nights caused the conductor to miss a bob! Those not ringing went over to West Coker (eight, 12 cwt.), a lively little ring. After lunch in Yeovil, our party divided into two, some meeting at Yeovil for Bob Royal, and others going to Sherborne Abbey (eight, 46 cwt.) for Bob Major. As all the band for Sherborne were resident (or nearly resident!) members of the Kent County Association and none were members of the Salisbury Diocesan Guild, it was decided to ring the peal for the Kent County Association after getting the O.K. from Mr. W. H. Pope and Mr. W. P. Lambert, both local ringers.

It was a great personal triumph for Geoffrey Waters, who, at 22, is the youngest to ring this tenor to a peal. And with Malcolm Cloke, aged 18, on the 7th, the combination for 7-8 averaged 20 years of age, a record for this weight of metal. Everyone enjoyed the peal, and by all accounts it was well struck and no blisters at the finish either! Geoffrey has a big future ahead of him, as in his style and build he has the makings of a really fine heavy-bell man.

At Yeovil, Tom Setter achieved his ambition to 'turn in' the tenor, and was very ably as-

(Continued in next column)

COVENTRY DIOCESAN GUILD**Rearrangements of Districts**

There was an attendance of 60 members and friends at the quarterly meeting of the Coventry Diocesan Guild held at Southam on July 28th. The bells of the church were rung in rounds and various methods to suit all tastes for an hour in the afternoon until the service at 4.30, conducted by the Vicar of Ryton-on-Dunsmore, the Rev. J. West (a former curate of Chilvers Coton), in the absence of the Rector.

Tea was partaken of at the Craven Arms and the business meeting followed, the Master (Mr. F. W. Perrons) taking the chair. Following the minutes, apologies were read from the President, Mr. and Mrs. L. J. Hinde, J. White, J. Thompson and J. Lloyd.

The report of the committee meeting held in Coventry on June 13th was read and the recommendations put to the vote and carried, the chief items being the retention of the three districts, Nuneaton, Coventry with Rugby, and Warwick with Stratford and the rearrangement of those districts. Nuneaton district is to be allotted Exhall, Bedworth, Shilton and Brinklow in addition to those already held and Southam is to be attached to the Warwick and Stratford District, thus providing more ringers for that district and more scope for the ringers from Southam.

The secretaries for the Coventry and Nuneaton Districts agreed to continue in their positions and Mr. R. J. Edden and Miss M. Middlemiss were elected as joint secretaries of the Warwick and Stratford District.

The suggestion that each district should appoint a Ringing Master to relieve the secretary of all work connected with the actual ringing at the meetings was approved, the election to take place at the next meeting of each district.

New members elected were A. J. Barrett and S. T. Hauley, of Harbury, and the election of B. G. Warwick was ratified. Stratford was selected as the meeting place for October.

Votes of thanks were accorded to all who had helped in any way to make the meeting the success it undoubtedly was, and the business ended.

A collection for the Bell Repair Fund amounted to £1 17s. 4d.

(Continued from previous column)

sisted by the two other back-end men, Messrs. Ron Marlow and Reg Rex. In the writer's opinion the only thing that spoils this majestic ring is the harshness of the 9th. The evening finished with press photographs, a game of skittles at the Pall Hotel and a general 'chin-wag' on the week's adventures.

THE WAY BACK

Sunday morning, August 5th, arrived all too quickly, and we had a steady ride (with 'short cuts'!) to Gillingham (eight, 25 cwt.) where Mr. Jim Ralph was waiting, with other local ringers, to welcome us. We had just rung a nice touch of Stedman, and were beginning Grandsire for a visitor from Reading, when a loud crash and a 'silent drum' showed us that the tenor clapper had snapped in half! So we confined our efforts to Cambridge and Oxford Treble Bob Minor, leaving out the treble, until service time.

Before lunch at Salisbury, Mr. Fred Macey thanked the organiser for another very enjoyable week in a lovely part of England. The organiser would like to repeat again that it was a great pleasure for him, and everyone co-operated magnificently. Next year we hope to visit Shropshire, subject, of course, to local permission and conditions. The date will be Saturday, August 9th to Saturday, August 16th.

We should like to thank all the incumbents, local ringers and others, who did so much for our comfort and really did give us a splendid welcome in every tower we visited. So if you want a good time, good bells and good company, 'go down to Zummerzet'—you'll not be disappointed.

A. P. C.

40 YEARS AGO

From 'The Ringing World' of August 25th, 1911

HANDBELL PEAL AT THE CRYSTAL PALACE

On the occasion of 'Ringers' Day' at the Crystal Palace, on July 15th last, organised by 'The Ringing World,' it was suggested that a peal rung in the Crystal Palace would be a novelty. . . . To get a suitable place in the Palace is rather a difficult task owing to the fact that . . . there is always a premium upon the accommodation. A room was, however, secured . . . and on August 16th, five members of the All Saints' Society, Fulham, started for the first peal When, at 9.33, 'That's all,' was called, a peal was finished which anyone could be justly proud of.

[The method was Grand sire Caters, rung by W. A. Woodrow 1-2, A. F. Shepherd 3-4, W. Shepherd (conductor) 5-6, L. Attwater 7-8, F. G. Woodiss 9-10.]

SITUATIONS WANTED AND VACANT

Preference to Bellringer.—Wanted, strong young man of 24, unmarried, as second of four in garden; must be used to stove, plant-house, propagating; Church of England and total abstainer; take turns Sunday duty, fires, etc. wages 18s. . . .

LEISURE TIME ACTIVITIES

A Popular Oldham Experiment

Recently the Oldham Education Committee held a Festival Exhibition of Leisure Time Activities. It was with some uncertainty that the writer answered the original advertisement for exhibitors, not knowing exactly what would be entailed; but after a preliminary meeting of representatives of the various societies and organisations, it was decided that the St. Mark's bell-tower, Glodwick, would make an individual effort to put before the public the 'mysteries of bell-ringing.' The next point to arise was 'What can we put on show?'

Many ideas were tried, and many ideas rejected, until the following items were finally decided upon:—Handbells, standard diagrams, Association publications, model of bell mechanism, photographs, bellropes, etc.

The exhibition was officially opened by the Mayor of Oldham, with the Director of Education acting as chairman to the committee, and from that moment 'the show was on'! Each evening of the week and Saturday afternoon and evening we were kept very busy answering questions and explaining all that we could to a never-ceasing stream of visitors to our stand.

It had not been the intention to include 'The Nine Tailors' on the stand, but so many people quoted the book, or some extract from the book, that we had to keep it handy for reference! Whilst some of the questions were ridiculous owing to ignorance of bell-ringing, the majority of interrogations were of a serious and thoughtful type, and from all ages of visitors. The explanations and demonstrations given were keenly appreciated by a very critical audience, particularly when a little change-ringing was done on the handbells a few times each evening.

At a final meeting of the representatives, the writer expressed thanks for this exhibition which allowed us such a golden opportunity to 'put over' to the public the cause of church bell-ringing. If we only managed to impress 500 out of the thousands who came through the hall, we will be satisfied.

NOTE.—The stall, according to the photographs submitted, was most attractive. In bold lettering it was headed 'Lancashire Association of Change-ringers, Rochdale Branch, St. Mark's, Glodwick.' Two bellropes decorated the sides and a semi-circle of 20 handbells looked most effective among the various exhibits.—ED.

REDEDICATION

CAPEL, SURREY

After a silence of over 22 years, the bells of St. John-the-Divine's, Capel, Surrey, rang out again on Sunday, August 5th, after being rehung by Messrs. Mears and Stainbank, who had recast the second and fifth, which were cracked.

The dedication prayer was said by the Bishop of Guildford at the end of Matins and the bells were rung by members of the local band, while the procession receded to the sanctuary for the final Blessing. It is worthy of note that among those who rang was Mr. George Steadman, now 85, who rang in what was then a record performance, a peal of Treble Bob Minor consisting of fourteen 720's in different methods (10,080 changes) in 1888.

As the large congregation left the church six members of the Leatherhead band, by invitation, rang a 360 of Cambridge Minor followed by a 240 of Kent and Oxford Treble Bob. The two bands were entertained to lunch at the King's Arms by the Vicar and churchwardens.

From 3 until 6.30, with a break for tea, the bells were open to visitors and were made full use of by ringers from Wycombe, Walton, Hawley and Horsham to a variety of methods from Stedman Doubles to London Surprise Minor and, to fit the occasion, a course of Capel Treble Bob.

And so, at the end of 21 years of office, the secretary of the Leatherhead District was able to complete his ring on the towers in his district.

A. H. S.

A DAY IN NORTH DEVON

On August 8th a party of change-ringers, including Preb. E. V. Cox, the Rev. Mr. Andrews, the Rev. W. H. Smale, Messrs. Myers and other members of the Guild of Devonshire Ringers, met at Burrington. After ringing Grand sire and Stedman Doubles on the interesting six they proceeded to Roborough, a six by Messrs. Taylor in 1823. The Rector, the Rev. W. J. Williams, met the party.

Yarncombe was the next stop and after all had joined in touches of Doubles we ran on to Atherington, a fine six by Pennington, dated 1786. Here many of the villagers crowded round the belfry to watch the lady ringers—Miss Gilbert, Miss Boyle and Mrs. Miles—joining in a touch of Bob Minor with Tom Myers conducting. Much interest was shown by the local ringers in this as well as in Stedman and Grand sire Doubles.

The Rev. Mr. Andrews led the way to Bishop's Nympton where we found a perfect six recently recast and rehung by Messrs. Gillett and Johnston. Messrs. Myers and 'Father' (the Rev. W. H. Smale) would have tarried here but a peremptory call for tea at the 'Red Lion' by the organiser, Mr. F. C. Smale, ended the ringing. A real old-fashioned tea with cream and home-made cakes followed.

Rose Ash was the next halt. What a delightful place with a spacious green surrounded by tall oaks! It was here that a line of Southcombes officiated as Rectors for 300 years. The bells were a 'handful' but all our touches came round. Thence we proceeded to Knowstone, the route providing a panorama—with Exmoor to the North and Dartmoor to the South.

Thence over commons and moors to the pleasantly-situated Rackenford, where the Rector (the Rev. G. K. Elliot) welcomed us. The bells are an interesting six and much interest was shown in our touches of Stedman and Grand sire and the unusual picture of a lady competently turning in her bell. Then goodbye and a satisfied party of ringers made their ways North, South, East and West homewards. We were glad to have Messrs. Searle and Burrows with us.

F. C. S.

WEDDING OF MISS F. M. POOLE

A well-known Somerset lady ringer, Miss Freda M. Poole, eldest daughter of Mr. and Mrs. W. H. Poole, of Hardington Mandeville, near Yeovil, was married at St. Mary's Church, Hardington Mandeville, on August 4th. The bridegroom was Mr. Geoffrey H. Patrick, youngest son of Mr. and Mrs. H. F. Patrick, 22, Stansfield Road, Stockwell, London. The Rev. Paul Greaves officiated, and Miss Jearum was organist.

The bride, given away by her father, wore a dress and train of white cloque, headdress of orange blossom and full-length veil. Her bouquet was of pink roses and white stephanotis, and her ornament, a gold locket and chain, was given her by the bridegroom.

Chief bridesmaid was Miss Louie Poole, sister of the bride, and the other attendants were Miss Margaret Yerbury, niece of the bridegroom, and Miss June Partridge, friend of the bride. Best man was Mr. W. H. Turner.

A reception was held at The Barn, Manor Farm, attended by 100 guests. The honeymoon was spent at Newquay.

The gifts included bed linen to the bride, from the postmaster and staff, Crewkerne, where she was employed; and an electric iron from the Rector, churchwardens and bellringers of St. Mary's Church, Hardington.

Owing to the church bells not being able to be rung, the bride joined in a touch of Grand sire Triples on handbells at the reception. The ringers were H. W. Pearce 1-2, W. H. Poole 3-4, W. E. Turner 5-6, the bride 7-8. In the evening a quarter peal of Grand sire Triples was rung at West Coker by R. Guppy 1, H. W. Pearce 2, E. Atyeo 3, W. H. Poole (conductor) 4, T. Marks 5, A. Atyeo 6, W. E. Turner 7, S. White 8.

NORWICH DIOCESAN ASSOCIATION

East Norfolk Branch

A meeting of the East Norfolk Branch was held at Norton Subcourse on July 21st when 29 members attended. The service was conducted by the Rev. K. O. Morris (Vicar of Norton) and tea was provided in the Church School Room.

The Rev. K. O. Morris presided at the business meeting. Owing to the unavoidable absence of the branch secretary (Mr. J. Harwood) Mr. P. Newstead was asked to act as secretary. The following were elected members: Mr. Peter Devenish, Miss Beth Martins (transferred from probation to ringing member), both of Blofield tower, and Mr. Geoffrey Short (Halvergate).

The next meeting will be held at Halvergate on September 29th. Discussion on the printing of the annual report took place. Votes of thanks were passed to the Vicar and also to Mr. G. Walpole and helpers for providing an excellent tea. Ringing was resumed after the business meeting.

NOT WITH THE ASSOCIATION'S BLESSING

Dear Sir,—With reference to the item in Belfry Gossip of August 10th announcing the failure of an attempt to ring Holt's Original silent, I would like to point out that a false impression may be created by claiming it as an attempt by the Lancashire Association. By so doing, the attempt acquires an official air of the Association's blessing. To be strictly correct, the attempt was by a mixed band of the Lancashire Association Police Guild and Chester Diocesan Guild.—Yours truly,

THOS. H. HORRIDGE.

Liverpool 21.

NOTE.—We are sorry to give this false assumption in our note, but we assumed that, had the attempt been successful, the peal would have been recorded by the Lancashire Association. We trust that 'foreigners' of the Police Guild and Chester Diocesan Guild were not responsible for losing a very gallant attempt.—ED.

LETTERS TO THE EDITOR

METHOD EXTENSION

Dear Sir,—All those in the Exercise who are interested in the question of 'Extension' have now had two or three months in which to consider the Methods Committee's report on the subject. There have, so far, been no comments. In order that the matter may be finally dealt with at the next meeting of the Central Council, we now ask those who have any criticisms to offer to submit them to the Committee for its consideration. But may we make an earnest plea for constructive criticism? It is no help to us unless suggestions are backed by good reasons, but those that are will be carefully and sympathetically considered.

With regard to the query about Union Triples, I regret that the Committee has not yet been able to meet to discuss the matter. As soon as it has done so, its opinion will be published.—Yours faithfully,

K. W. H. FELSTEAD (Rev.).

(On behalf of the Methods Committee.)

St. Michael's Vicarage,
Southampton.

TWO PROMISING RINGERS

Dear Sir,—On the last day of the 'Kent' tour in Somerset and Dorset, peals were rung at Yeovil and Sherborne Abbey. As one of the other six, who were privileged to stand in the latter peal, I would like to record the truly great performance of Malcolm Cloke (aged 18) and Geoffrey Waters (aged 23).

Sherborne Abbey tenor is a real man's bell but young Geoff rang it with the practised ease of any well-known heavy-bell ringer and, after 4½ hours, finished up quite fresh and with only a few minor blisters.

After about three hours we thought he was tiring but he told us afterwards that the few dotted notes were caused by the bells swinging a little lower than he wished and after failing to raise her by steady pulling, he gave her a mighty heave that sent her over the balance and it took several more blows to place her correctly. From then on he rang the bell faultlessly to the end, and the happy grin on his face during the last quarter peal told us that all was well.

Malcolm, on the seventh, did not have so much weight to pull about, but the ability of this slender youth to ring the 29-cwt. bell and conduct the peal was never once in doubt. For at the slightest hesitation of any ringer, the latter was promptly told what he was doing and who he was cursing and only once was a bell allowed to hesitate long enough to cause a clash.

Malcolm rang steadily throughout, his face never betraying his feelings until the last change came up, then he literally danced on the box as he shouted, 'And that's the lot, the whole blooming lot,' but instead of calling 'Stand,' we had to finish the job properly with a good lower in peal.

Even if an expert hand is asked to help them, the youth of the Exercise will be hard put to it to equal the performance of these two coming men of the future, for it must be remembered that this peal came at the end of an intensive 'Canonised' week of 47 towers, and each had stood in four peals.

In the morning I had picked up a peacock's feather at East Coker and was told that it was very unlucky. When the peal at that tower failed, the wags shook their heads, but we defied superstition and took the feather to Sherborne. Here we began to wonder for twice, after five minutes' ringing, we had 'Stand,' but we put that down to stage fright.

On entering up the peal, I found that it was my 13th for the Kent County, and my 13th of Bob Major.

CHAS. A. BASSETT.

CALLING OF HOLT'S ORIGINAL

Dear Sir,—I split the calling into eight parts. Every double or consecutive bob I memorise as 1, viz., 53454443131, etc.

My first peal that I conducted was the Original, on September 12th, 1887, double-handed, on handbells, at the 'Goose and Gridiron,' St. Paul's Churchyard, being umpired by John Murray Hayes and G. T. McLaughlin; time, 2 hours 4½ minutes. Band; G. W. Cartmel 1-2, E. P. Debenham 3-4, Challis Winney 5-6, W. H. L. Buckingham 7-8; conducted by G. W. Cartmel.

Umpires' remarks at finish: 'There was no need of an umpire.'

I was the first to call the Original on each pair of handbells.

St. Albans.

G. W. CARTMEL.

TIPS FOR HOLT'S ORIGINAL

Dear Sir,—In learning the Original it is most important that the bells Before and at the Double be also learnt. Then, at your previous call, you can see at once if your next Before and Double is right.

One well-known pitfall is the calls 5, 7, 7 and, shortly after, 7, 5, 5. If you look at the first, the lead before the 5th is the 7th and in the second the lead before the 7th is the 5th.

Another tip is when in doubt, if your next call is a full course, remember the 2nd is never in the hunt. For a full course in the peal, the 6th also is never in the hunt five leads except in the last 7, 0, 0, and then twice. When one is calling it regularly, it is surprising how many hints one can learn, but there is one thing about the Original, it does not matter how many times one has called it, it has always got to be called. In other compositions one can wander, but not in the Original. The mind is on it all the time.

Guildford.

A. H. PULLING.

HOSPITALITY IN SCOTLAND

Dear Sir,—With regard to hospitality shown to ringers who visit Scotland, my own experience is of a happier nature than that of Mrs. Wall's.

While serving in the Royal Navy during the last war, I was stationed at Greenock from 1943-45, and was thus able to make the journey several times a week to Paisley or Glasgow. My first visit to St. James', Paisley, was about September, 1943, when I heard a bell tolling in St. James' tower. I made my way to the ringing chamber, and met Mr. N. Sharpe, who explained that the local ringers needed help. After attending church that evening I was invited home to meet Mr. Sharpe's family, and have remained friends ever since.

Following much spade work, we managed to ring several quarter peals at St. James'. Whenever I visited St. Mary's Cathedral, Glasgow, I was always given a welcome. It was my privilege to ring with many old friends at both towers while on holiday last month in Scotland.

There are several ringers who served in the Forces during the last war who had the pleasure of ringing at both St. James', Paisley, and St. Mary's, Glasgow, who could not find words to express their thanks for the hospitality extended to them by all the ringers. Mr. and Mrs. N. Sharpe's home at Paisley was an ever-open door. I feel it only right to enlighten other ringers in England that there's a very warm welcome awaiting them at St. James' or St. Mary's.—Yours sincerely,

FRANCIS J. CHEAL.

Rainham, Kent.

WEMBDON, SOMERSET.—On Aug. 2nd, 1,260 Grandsire Doubles: 1. Hillburn 1, Miss Sylvia Dean 2, W. Cavill 3, N. Stevens 4, F. Skinner (cond.) 5, E. Skinner 6.

OBITUARY

MR. T. WILFRED TAFFENDER

The many friends and acquaintances of Mr. Wilfred Taffender will learn with great regret of his untimely passing in Hill End Hospital, St. Albans, on the night of August 14th. Mr. Taffender was 44 years of age and leaves a widow and small four-year-old son.

The cause of his death was a tumourised growth in the head. The best specialists in the country, including Lord Horder, have been in attendance and are satisfied that nothing could be done to remove the growth which they knew must become fatal within a short space of time.

It was as recently as July 7th that Mr. Taffender conducted his last peal—one of Stedman Triples rung as a 'Festival of Britain Peal' at St. Mary's, Lambeth. He also conducted the first quarter peal at the Festival Church after its restoration—the first rung there for 15 years.

A funeral, which was held at Streatham Vale Crematorium on August 20th, a slowly-struck course of Triples was rung by: H. W. Rogers 1-2, T. H. Taffender 3-4, J. Bullock 5-6, W. D. Grainger 7-8.

Among the other ringers present were Messrs. E. Alex. Young, I. Emery, J. A. Prior, J. W. Ward, J. W. Chapman, J. Lott, R. H. Begrie, C. Dawson (also representing E. D. Smith) and H. W. Rogers (also representing Mrs. O. L. Rogers). A wreath from the London County Association was among the beautiful floral tributes.

The sympathy of the Exercise has been expressed by numerous friends from far and near, to that notable figure, Mr. T. H. Taffender, and also to the deceased's widow and mother.

WORK FOR LONDON COUNTY

ASSOCIATION

Apart from being one of the most capable ringers and conductors in the country, Mr. T. W. Taffender will principally be remembered for his untiring work as a member and officer of the London County Association and North Southwark Diocesan Guild. He was for many years general secretary of this Association and at the time of his death held the office of trustee.

His first peal was one of London Surprise Major at St. George-the-Martyr's, Southwark, in January, 1923, and his following four peals were Stedman Cinques at St. Mary-le-Bow, Kent Treble Bob Maximus at Southwark Cathedral, London Surprise Major at St. Mary's, Rotherhithe, and Stedman Caters 'in hand' at Camberwell. These first five peals were conducted by his father, Mr. T. H. Taffender, and Mr. James Bullock also took part in each.

His total peal list is 156, of which he conducted 50, and 148 have been for the London County Association. Mr. T. H. Taffender rang in 148 and conducted 76. A notable peal was one of Stedman Cinques at St. Leonard's, Shore-ditch, in which six fathers and sons took part and rang in the order of father and son.

In the words of one of Mr. T. W. Taffender's oldest ringing friends, it would take an entire book to write of all his work and achievements. It is possible that a memorial service with appropriate ringing for all his friends will be held at St. Mary's, Lambeth, on a Saturday afternoon about mid-September, in which case, notice will be given through the columns of this journal.

H. W. R.

GREAT PONTON AND DISTRICT

On August Bank Holiday ringers from Great Ponton, Grantham, Ancaster and Silk Willoughby, with their wives, visited Rutlandshire, the outing proving most enjoyable. Ringing took place at Market Overton, Cottemore, Oakham (and also lunch at the George Hotel), Priston, Uppingham (also tea at the Falcon Hotel), Langham, Exton and Greatham. At Greatham a very pleasant conclusion was formed by the singing of Hymn 176 to the tune of Crimond, by the whole party and a few prayers conducted by the Rector.

Methods rung included Grandsire Doubles. Plain Bob Doubles. Minor and Major, Kent. Stedman and, of course, rounds.

OUTING

MELTON MOWBRAY

On August Bank Holiday the ringers of St. Mary's, Melton Mowbray, Leics, held their annual outing. Since one or two of our own members were unable to be present, several ringers from neighbouring villages came to swell the numbers and we were also accompanied by wives, children and friends.

Our first tower was SS. Peter and Paul's, Uppingham, where the eight bells were rung to Grandsire, Stedman and Kent. At Kettering several local ringers joined the party and we were thus able to ring Grandsire, Caters, Bob Royal, Double Norwich and Stedman Triples. After an excellent four-course lunch the heavy eight of Wellingborough proved rather a tough proposition, but, nevertheless, we enjoyed ringing Grandsire, Stedman and Plain Bob. A contrast was provided by the light eight at Burton Latimer, which met with immediate approval. Here again local ringers joined in a very pleasant hour's ringing, including a second attempt at Cambridge.

It was then time to return to Kettering and find a little light refreshment before going on to the fifth and last tower. Market Harborough. We were again welcomed by local ringers and made the most of our last opportunity for the day, ringing some excellent Stedman, Double Norwich, Plain Bob and Oxford. During this, two ringers 'dropped in' who were on their way home after ringing a peal of Yorkshire Maximus but they were still eager to ring again!

In spite of the fact that the rain poured on us each time we moved from church to bus, or vice versa, everyone enjoyed themselves immensely, especially about half a dozen learners.

Our grateful thanks are due to all who helped to arrange the outing and make it such a success.
