### A POET IN NEW ZEALAND

**R**EADERS of 'The Ringing World' are familiar with the name of Albert J. Lancefield. As a keen ringer who shared in the joy of a peal, he was regarded as one of the coming young men of Kentish ringing. And then, to the surprise of his friends, in December, 1948, at the age of 28, he sailed as an immigrant to New Zealand. The daily round at his former engineering workshop after his foreign service with the Royal Air Force became dull and uneventful. He responded to the wanderlust in his blood. His journeying and ringing experiences have been recorded from time to time in our pages, and while in New Zealand and also in Australia he made a valuable contribution to local ringing, acting as a conductor and instructor.

Another side of his character has been revealed—that of a poet, and in 'By Wandering Tempest' (The Mitre Press, 7s. 6d.) he has modestly enabled others to share in his thoughts and aspirations. These would not have appeared in print but for the exhortations of a very respected friend, for in their initial form they were written with no thought of publication in mind.

Following a meeting of the Ashford District of the Kent County Association at Smarden on November 27th, 1948, came this tribute to its six bells with a tenor of 18½ cwt.:

To the fine bells of Smarden must I sing  
One song of praise and love,  
Before I say goodbye to their domain  
To wander and to rove.

Last night we heard them on the frosty air  
As from the church we strolled;  
November mists and murky darkness hung  
Around us damp and cold.

As down the wealden village street they pealed  
In rhythm clear and slow,  
We lingered to enjoy their harmony,  
Rich, resonant and low.

Three more verses were added a week later off Cape Finisterre, which read:—

The mists are lifted now and I am gone  
Across the ocean foam,  
But sometimes in the quietness of the night  
They call me back to home.

Some day I'll answer, some day I'll return  
To hear their haunting strain;  
And I shall take my place there in the tower  
And feel the ropes again.

Loved bells of Smarden, from your tongues I hear,  
Soft, retrospectively,  
The music of past years, around whose theme  
Revolves Life's Symphony.

Mr. Lancefield was present at the ceremony of blessing the new ring of eight bells at the Cathedral Church of St. Peter, Hamilton, and the inspiration of that service is contained in 'Their New Te Deum':—

'We praise Thee, O God; we acknowledge Thee to be the Lord,'  
The Very Reverend from the psalter read,  
And clear and sweet the bells from overhead  
Upon the congregation their new Te Deum poured.

From tower to city young, beyond its precincts flung,  
Their proclamation sounded; far and wide,  
O'er gully bare, o'er paddock newly sprung,  
Wild, pristine forest bush, green, fruitful countryside.

'The glorious company of the Apostles praise Thee,'  
The congregation in full concourse sang;  
The bells with swinging tongues the echo rang,  
And to the hearts of thousands conveyed their psalmody.

Another memorable occasion for Mr. Lancefield was when the bells of All Saints' Cathedral, Christchurch, were rung on December 16th, 1950, to mark the centenary of the landing of the Canterbury Pilgrims from the first four ships—'The Charlotte Jane,' 'Cressy,' 'Randolph' and 'Sir George Seymour'—at Lyttelton Bay, now part of Christchurch. The following day the Archbishop, Dr. G. F. Fisher, conducted a service attended by over 20,000 people held in the Cathedral Square, Christchurch. 'The Centennial Message' tells the story of that great occasion:—

'We are the pioneers,' they said,  
'We came to make our future here,  
And by the grace of God prove true  
To the far land we love so dear.'

'God of our fathers, pledged to us,  
God of our children yet to be,  
In faith were England's churches built,  
In faith we raise this fane to Thee.'

Then Rhodes supplied a ring of bells  
To hang in the Cathedral tower  
That every Sunday, year by year,  
'Twould prove them seed of Britain's flower.

True symbol of the pilgrims' creed,  
Of everything they fashioned here;  
The bells now bear to everyone  
The gist of the Centennial year.

Provoked by articles in the daily papers on the Atomic Age, Mr. Lancefield gave this answer in a poem, 'Why should we fear?':—

[Continued next page]

How prone we are to pride ourselves as free  
Self-governed units, learned and supreme.  
And yet our latest thought is but a gleam,  
A moment's portion of eternity!  
Can we design ought never meant to be  
In the ascending Universal Scheme?  
Or has our skilful scientific team  
Made one more step towards maturity?  
Why should we fear? The natural order rolls,  
And man and everything that he controls  
Responsive moves to the Creative Will,  
Though Death and Hell and Judgment's Final bill—  
Terms we have pilfered from archaic scrolls,  
Like worms eat out our understanding still.

There are some 55 poems in the collection. The odd verses we have quoted give an indication of the author's style, and all who read the book will say a special thank you to 'a very respected friend' who induced their publication to a wider field. There are many of our readers who enjoy verse, and we feel certain they will not be disappointed in Mr. Lancefield's first essay in this direction.

## EIGHT BELL PEALS

First peal in 72 methods for all, on the bells and for the Guild. This is the greatest number of Doubles methods yet rung to a peal; each method had its own plain course and each plain course conformed to Central Council requirements. No bobs used and no method was the bob lead of another.

# GILLETT AND JOHNSTON LIMITED

No matter in which corner of the country you happen to be, as likely as not you will come across Gillett & Johnston bells or tower clocks. Gillett & Johnston craftsmanship is embodied in an all-embracing service — as much in the preservation and restoration of old rings of antiquarian interest as in the installation of new.

## FORTY YEARS AGO

Extract from 'The Ringing World'  
February 26th, 1915

## SURPRISE RINGING AT SOUTHGATE

Later on, when the conclusion of peace enables peal ringing to resume its normal course, we look forward to a peal of London Surprise Major being rung at Southgate by a band who have not only learned their ringing in the tower, but who were all born within the sound of the bells. We do not say that this will be absolutely unique, but certainly there are very few towers where a peal of London has been rung by a local band who can claim this distinction. That the Southgate men have the opportunity before them is proved by the fact that on February 10th they rang 1,344 in the method . . . in 55 minutes: G. Bester 1, G. W. Fletcher (age 18) 2, E. G. Tomlinson 3, J. Armstrong (conductor) 4, N. A. Tomlinson 5, H. Miller 6, J. E. Miller 7, F. G. Tegg 8. It was the first quarter of London by the ringers of the 2nd and 3rd.

## LATE NEWS

The College Youths were successful in their peal of Stedman Cinques at St. Mary Redcliffe, Bristol, on Saturday. The same day an attempt for Stedman Cinques at Trowbridge came to grief after three hours' ringing, through the conductor missing a bob.

Mr. Frank T. Blagrove and his band at Stanwell have given another exposition of Doubles ringing with a peal in 72 methods, the greatest number yet rung to a peal.

Mr. J. W. Cotton has now 'completed the circle' at the ninth tower in the area by ringing the seventh at Cole-Orton to the peal of Double Norwich on February 14th.

The last peal rung by the late Mr. E. J. Gale was a 5,003 of Grandsire Caters on December 3rd, 1938, at St. Peter's, St. Albans. It was his first peal on ten bells.

Mr. C. W. Woolley has been nominated to serve as president of the Hertford County Association. The annual meeting will be held at Watford this year.

There is many a history lesson in our quarter peal columns. Ringing took place at St. Mary-de-Lode, Gloucester, to commemorate the 400th anniversary of the burning of Bishop Hooper.

The 90th birthday of Mr. Harry Brown, of Hayes, Kent, was commemorated by a peal of Oxford Bob Triples at Hawkhurst, Kent, rung by a local band except the conductor, Mr. M. Cloke, who was a former resident. Many ringers in the Hayes and Bromley district owe their proficiency in the art to Mr. Brown.

Hawkhurst bells were rehung in a new oak frame by Messrs. Mears and Stainbank in 1904 and have not had the attention of a bellfounder since. The 'go' of the bells is still good, although the gudgeons and bearings have worn through constant use Sunday by Sunday.

At the East Berks and South Bucks Branch meeting at Boyne Hill to-morrow the Vicar will dedicate at 4 p.m. a stone memorial tablet to George Martin and William Walker, which is erected in the ringing chamber, where they both rang for more than 60 years.

## BELFRY

## GOSSIP

In regard to the leading peal ringers at Erith (see page 106) the name of Mr. J. Bennett should be included. He has rung 53 and conducted three there. The author expresses his regret at the omission.

Wales has its veterans. Mr. W. Pike rang in a quarter peal in honour of his 80th birthday at St. Martin's, Caerphilly.

Mr. George Brown has completed a half century as a ringer at Christ Church, Bacup, Lancs. He rang in a congratulatory peal.

Writes a Cheshire correspondent: 'I must say that after all the opinions expressed about "The Ringing World" I read it from cover to cover and find it very good.'

The Hertford County Association are hoping to revive the Benington Great Ringing Day on Whit Saturday. In Squire Proctor's time it was always held on May 29th.

Any members of the R.A.O.B. who may be interested in a peal attempt are asked to contact Mr. Ernest J. Rowe, 3, Avenue Road, Tottenham, N.15.

The peal at St. Andrew's, Chippenham, reported in our issue of February 11th, was the first there for 20 years. The next peal at Cadoxton, near Neath, will be the 50th on the bells, writes the Rev. K. W. H. Felstead.

The bells of Stoney Stanton, Leicestershire, rang merrily on February 12th. There were two golden wedding anniversaries in the village on the same day. Those who rang the peal want to know if any other village has had a similar coincidence.

Mr. H. Cox, of Wimbledon, and formerly of Boyne Hill, has entered Wimbledon Hospital for a serious operation, and the best wishes of the band were extended to him on the completion of a quarter peal, which appears in our columns, and in which he took part.

## PEAL RINGING IN HUNTINGDONSHIRE

Huntingdonshire, being such a small county, and having, therefore, few towers, it will be possible to mention them all in a review of peal ringing since 1881. The first peal recorded in the county was at Keyston (5) in 1888. I can't remember that a 5-bell tower has been able to claim first peal in the county anywhere else, but it is probably so in this case. It is the only peal ever rung on the bells, too, so the tower holds a pretty good record for silence as well! The footnote to the peal says: '... and it is a great many years since, if ever, a peal has been rung in this county.' I certainly haven't come across an earlier one yet and it would be very interesting to know if anyone has. Whether there was anything wrong with the peal, I don't know, but the next peal in the county, at Huntingdon, St. Mary's (8), in 1890 has a footnote: 'This is considered to be the first true peal rung in the county.' Perhaps we shall never know. But it seems that this time it is possible to give a complete record of peals since none had been rung before 1881 apparently.

There are no 12- or 10-bell towers in Huntingdonshire, only five eights, 17 sixes and 15 fives. No group has had all the towers rung to a peal. Bluntisham among the eights, Conington among the sixes, and Abbotsley, Buckworth, Elton, Great Gidding, Kimbolton, Leighton Bromswold, Great Paxton and Winwick among the fives remain virgin territory. Although there aren't a great number of peals to talk about (only 264 in all), it is clear that more are being rung now than at any time in the county's history, for 148 of them have been rung since the last war. This is a very encouraging sign.

A 6-bell tower, Holywell, leads the list of number of peals with 41. The first peal here was in 1925 and the remaining 40 have come in the last seven years, which is very good going. St. Ives (8) comes second with 33—22 of these have been rung since 1944 (but none since 1953) and the remainder were heard in the years 1931 to 1938. Another 6-bell tower is third—Spaldwick, with 32. Eleven were rung from 1922 to 1931, then there was a gap until 1948, since when the remaining 21 have been rung. In the 20's are three more 6-bell towers—Huntingdon, All Saints' (24—first peal in 1904,

then three peals in 1928 and 1929, and the remaining 20 in the last seven years). Hemingford Abbots (22—first peal in 1903, 10 peals from 1926 to 1938, and 11 since 1946), and Woodstone (21—first peal during the first war, in 1916, 16 more up to 1927, three in 1933 and 1935, and an odd one in 1948 to complete the count).

Only two other towers have reached double figures—both have eight bells. They are Huntingdon St. Mary's with 15 and St. Neots with 10. The former is one of the exceptions to the general trend in this county of more peals in recent years, for 10 of them were rung before 1914. There were three between 1927 and 1930 and the remaining two in 1948 and 1949. St. Neots' peals are spread evenly over the years since 1920, when the first peal was rung. There have been four since the war. The only other 8-bell tower is Godmanchester, which has scored nine peals. The first was in 1895 and then came a gap of 30 years, when four more were rung during the next seven years. There have been four more in the past three years, so things are looking up a little here.

As for the six-bell towers, the following is a complete list of those not already mentioned: Alconbury (one peal in 1927); Alwalton (three, in 1905, 1937, 1950); Eynesbury (six—two before 1914, two between the wars and two since); Great Gransden (three, in 1938, 1930, 1932); Hartford (two, in 1930 and 1932); Hemingford Grey (five, in 1896, 1903, 1924, 1927, 1948); Ramsey (two, in 1904 and 1906); Somersham (six, in 1933, 1935, and four since 1944); Stanground (two, in 1947 and 1948); Great Staunton (eight, four from 1921 to 1935, and four since the war); and Yaxley (eight, in 1913, 1926, 1933, and five from 1948 to 1954).

Warboys, with four peals in the past two years, has most in the 5-bell towers. All the rest (Buckden (1935), Fenstanton (1923), Fletton, Houghton and Tetworth (1953) and Keyston (1888—see above) have only one, with the exception of Brampton, where two peals were rung, one in 1908, and the other 40 years afterwards, in 1948.

I think every tower in the county has been mentioned. May the recent signs of activity in the county long continue.

## SHORTER PEALS

W. T., Consett.—

It seems we've got to curb our zeal  
For ringing out the 'lengthy' peal,  
Thus defer, with dubious grace,  
To the ever-encroaching populace.

Those noble souls, so gently nurtured,  
Must never have their senses tortured  
With sound of bells;  
Who yet approve of howling scenes  
On noisy, nasal picture screens.  
Will these the Exercise placate,  
And shortened peals appreciate?

Mr. K. G. Ornbø, Hull.—A rose by any other name would smell as sweet. A half-peal by any other name would give as much annoyance to those who don't like it, and as much pleasure to those who do, so why bother to change the name? In any case a 'peal' is only an endurance test. Beauty lies in good striking, even if it is only rounds.

Mr. E. T. Paul Field, Long Sutton, Somerset.—In my opinion no peal attempt should be made in any 'objection' area (factual or likely) unless for some very special occasion, ecclesiastical, national or parochial. When, however, such attempt is to be made, the incumbent should be asked to announce in church at each service on the previous Sunday, the date, time and probable duration of the ringing, together with an explanation of the reason, and with such other points of interest which he might consider beneficial. The parishioners would then know why the bells would be ringing and the objectors have a chance to be absent.

H. A. Price, Yatton, Somerset.—Surely in church life there is no short cut to glory. There seems no legitimate cause to cut the length of a peal for the ringer who 'rings to the glory of God,' and, therefore, it is unreasonable to 'cut' the peal short for the 'peal grabber.' Again, towers where ringing genuinely annoys are in the minority and should be avoided. Long peals are the exception rather than the rule. Stick to the 5,040 changes for a peal.

Mr. L. G. Brett, Framdsen.—5,040 is the maximum in Triples. Peal ringers, please keep 5,000 the minimum on other numbers.

## LLANDAFF AND MONMOUTH ASSOCIATION

### Monmouth Branch Report Progress

The annual meeting of the Monmouth Branch was successfully held at Chepstow on February 12th. Despite the very cold weather a large number of ringers attended, including visitors from Bristol and Rugby.

The choral service was conducted by the Vicar, the Rev. Ernest Evans, who gave a warm welcome to the Branch. The Rev. David Jones assisted.

A plentiful tea in the Church Hall followed, prepared by the wives, mothers and friends of the Chepstow ringers. These ladies were most sincerely thanked by Mr. R. E. Coles.

At the business meeting the secretary reported steady progress in Branch affairs. 22 new members having been elected during the past year and meetings well attended.

New members were then elected from Caldicot, St. Woolos, Peterstone, Chepstow, Usk and Rumney. Mr. J. Alsop (Ebbw Vale) was elected Branch Ringing Master. The secretary, Miss Jacqueline Evans, was re-elected.

Progress was reported from Penhow, Peterstone, St. Woolos, Caldicot and from the monthly Surprise practice. Wash was finally chosen as the place for the next meeting.

## THE LADIES' GUILD'S ACTIVITIES

### Midland District

The annual meeting of the Midland District was held at St. Mary-de-Castro, Leicester, on January 29th, when approximately 50 ringers and friends were present. The standard of ringing was good, ranging from rounds to Surprise Major. A short service was conducted by Father Pickering, prior to tea at the nearby Castle Inn.

Before the gentlemen returned to the tower Miss I. B. Thompson (vice-president) expressed thanks to all concerned.

At the business meeting the following officials were elected: Vice-president, Miss I. B. Thompson; secretary, Miss J. M. Simpson; two general committee members, Mrs. H. J. Poole and Mrs. B. G. Warwick; four District committee members, Mrs. H. J. Poole, Mrs. I. Hitchborn, Miss L. Ffoulke and Mrs. J. Lewis.

The vice-president thanked the members for their good attendance at meetings during the past year and said that she hoped they would keep it up.

One new member was elected. It is hoped to arrange a joint meeting with West Midland District at Tamworth sometime in June.

The next meeting will be held at Burton-on-Trent on March 26th.

### Central District's High Standard

Thirty-six ringers, half of them members, attended the annual meeting of the Central District held at Upper Clapton on January 29th. The standard of ringing was good with a pre-dominance of Surprise methods. The Vicar, the Rev. Shaw Kew, conducted the service, and welcomed the ringers. Short work was made of an excellent tea, after which 14 members sat down to the business meeting.

The 1954 annual report and financial statement were satisfactory, showing an increase in attendance at meetings. Mrs. Lock, North Mymms, was re-elected vice-president, and the following members were elected to the committee: Mrs. Savory, Mrs. Hodgson, Mrs. Bullock, Miss Sanderson and Miss Lawrence (secretary). Four new members were elected. Members were reminded about the next District meeting at Stanford-le-Hope, Essex, on April 30th.

The business meeting ended with votes of thanks to the Vicar, the organist, and the ladies who prepared tea. Ringing of the former high standard continued until late in the evening.

M. L.

## BRISTOL UNIVERSITY SOCIETY REUNION

THE annual dinner and reunion of the Society was held on January 29th in the Senior Common Room of the Refectory by invitation of the president, Professor R. J. Brocklehurst. After preliminaries at the bar, about 50 members and guests sat down to a three-course dinner. The formal toasts of 'The Queen' and 'The Church' preceded the following speeches.

Mr. J. R. Worrall proposed a toast to the 'Exercise.' He hoped that when the Central Council visited Bristol at Whitsun a very warm welcome would be afforded by local ringers and that the University Society would take its place with them. He also reminded those present that non-members of the Central Council were able to attend in a voteless capacity, and this would be an excellent opportunity to see the Council at work. Next Mr. Worrall drew attention to the most important link between ringers—'The Ringing World'—more important even than the Central Council, to which it belonged. Mr. Worrall had noted a decline in handbell ringing and suggested that Bristol handbell experts should make an effort to remedy the situation.

Replying to this toast, Mr. J. T. Duke spoke about the way in which the Universities' Association of Change Ringers was brought into being as a link between the so-called 'intelligentsia.' It seemed to Mr. Dyke that conditions in his younger days were far more difficult for anybody trying to learn an art such as riding a bicycle or change ringing. It was sometimes quite evident that theory was in advance of practice twenty or thirty years ago, and he instanced students at Wells.

The secretary, Mr. M. Sprackling, proposed the toast to 'The Visitors' and mentioned some of the notable persons present, commencing with Mr. J. T. Dyke, a stalwart of the Bath and Wells Association. The Master of the Cambridge University Guild was representative of the other University Societies linked by U.A.C.R. and this one. He was very pleased to see the Society's former president, Professor Piper, and the Rector of St. Michael's, the Rev. Vyvyan Jones. In welcoming Mr. L. Barry (Master of the Gloucester and Bristol Association) and other friends of the Bristol Branch, he made allusions to the privilege which had been bestowed upon various members of the Society—that of visiting the headquarters of Bristol ringing at the Naval Volunteer.

Mr. George Briggs, in his reply, said he was glad that this University Society could provide a means of drawing together ringers in an activity to lighten the burden of scholastic work for a while.

### UNIVERSITIES AND CENTRAL COUNCIL

The toast to 'The Society' was proposed by Mr. C. M. P. Johnson, the Master of the Cambridge University Guild, who was grateful for the informal but pleasant welcome afforded him. He referred to the special function of University Societies in allowing young ringers to associate in and out of the tower and then to return to their own localities having made considerable advances into the higher spheres of ringing. It was interesting to know that no less than 28 University men and women had places on the Central Council. Although the Bristol University Society was comparatively juvenile (being only 11 years old) it had already made an export to Australia, and by applying aerodynamic principles to change ringing, wonderful flights into the theory had been made by another member.

Replying, the Master (Mr. D. Marshall) outlined some achievements the Society had made during the year. A number of learners had been taught and continued to make progress.

About 60 towers had been visited by the Society and could thus be termed 'tower grabbers.' Eleven peals had been rung, five 'in hand' (Bob Major, Bob Minor, and four, five and six methods of Minor), and six on tower bells (Grandsire Caters, Grandsire Triples, seven methods of Doubles and three of Grandsire Doubles). One peal had been for the Chancellor of the University, Sir Winston Churchill, as an 80th birthday compliment, and this was also the president's first peal. Of the members, certain specialists were notable: for conducting from belfry rafters, handbell ringing, in theory and in unaccepted methods, especially in Grandsire Minor and Royal. Mr. Marshall ended by thanking the president for the invitation to the Senior Common Room, the various tower representatives locally and everybody connected with helping the Society to function.

In conclusion the president expressed his pleasure to see the old members back again and hoped that they would not forget to revisit Bristol on future occasions.

On retiring to the lounge the old members present gathered together to discuss a method of retaining connections with past and present members of the Society. It was decided with the nomination of Mr. I. H. Trueman as a Bristol secretary, that a magazine would be circulated each December giving notice of old members' addresses, and any items of general interest to them.

During the day ringing had taken place at St. John's-on-the-Wall, St. Matthew's, Kingsdown (the first time for over two years), St. Mary Redcliffe and St. James Horsfair, with many visitors at these towers.

The Society's 32nd peal was rung at Long Ashton in the morning, this being on the heaviest bells yet for the Society.

The home tower of St. Michael's-on-the-Mount-Without was open before the service at 6 p.m. The Rev. Vyvyan Jones officiated, and Mr. Kenneth Pinney played the organ. In the short address the Rector referred to the present members' activities in his choir, for which he did not mind the few minutes' wait whilst they came down from the belfry.

F. D. M.

## HERTS COUNTY ASSOCIATION Scoring Their First Quarter Plans

When the Western District held its annual meeting at Hemel Hempstead on January 22nd the secretary, Mr. R. Shutter, was able to report some success in recruiting new members during 1954. It was evident, he said, from the high proportion of younger ringers present, that interest in the art of change ringing was increasing in the District.

Mr. A. V. Good was unanimously re-elected to the office of Ringing Master, a position which he has held for over 20 years.

The retiring committee put forward a comprehensive scheme designed to improve the standard of ringing in the nine towers which form the Western District. At least 30 attempts are to be made this year to ring quarter peals. The attempts will be organised so that new recruits have every opportunity of ringing with experienced ringers, and, in many cases, new conductors will be encouraged to take charge of the proceedings.

From the proceeds of the Christmas function the meeting voted eight guineas each to Flamstead and St. Mary's, Apsley, to help their restoration funds; £5 to the County Association; and one guinea each to the Benevolent and Voluntary Bell Funds.

The service in St. Mary's Church was conducted by the Rev. A. Malley.

## WALSALL'S 'CARILLON' Young Ringers' Invasion

On January 29th the so-called 'carillon' of Walsall Town Hall was invaded by a number of young ringers from St. Matthew's, Walsall, and nearby Rushall. We were whisked to the first floor of the Town Hall in a lift of palatial dimensions—then we had to climb the 124 steps of the cast iron spiral staircase leading up to the top of the tower. At last we reached the chamber (if such it can be called) which houses the bells—it is open to the wind and rain on all sides and looks from the outside like a gigantic wedding cake. The bells are operated electrically by what is, in effect, a small pianola. The noise in the tower is deafening, although in the street below they can hardly be heard.

After we had admired the Parish Churches of Rushall and Walsall and had climbed over and under the bells, caught our heads on the wires, been poked in the middle by the devices used to counterbalance the chimes, and taken photographs (none of which turned out much good), we reluctantly descended the tower. On the way down one of our members gave a demonstration, with the aid of a penny, of how bells are tuned (the rest of us were not very impressed as, according to his method, they were hopelessly out of tune!).

Back in the Town Hall we inspected the manual which operates the bells. Several of us played rounds, Queens and Whittingtons, then one, becoming very bold, played an 'extent' of original Minimus.

We are considering having a quarter peal 'in hand' on them one day. S. T.

## HEREFORD DIOCESAN GUILD Bridgnorth Branch

The resignation was received with great regret at the annual meeting of the Branch at Bridgnorth on February 4th of Mr. H. G. Thomas, who has been secretary of the Branch for 20 years. His sterling work for the Branch is much appreciated. Mr. H. Edge, of Much Wenlock, was elected his successor. Both the Ringing Master (Mr. B. H. Heath) and the Deputy Master (Mr. J. E. Fox) were re-elected.

The passing of the Rev. C. S. Jackson, of Broseley, a great friend of the ringers, was remembered, the members standing in silence.

Meetings were arranged for Worfield, April 2nd; Broseley, June 25th; Madeley, September 10th; joint meeting with Shropshire Association in November.

The service in the afternoon was conducted by the Rev. Mr. Kemp, and the address given by the Rev. Mr. Hickling, of Coalbrookdale.

## ESSEX ASSOCIATION N.W. District at Harlow

A membership of 154 (110 ringing members, 37 honorary members and seven non-resident members) was reported at the annual meeting of the North-Western District at Harlow on January 22nd. The Vicar (the Rev. E. G. Bevan, R.D.), who had previously conducted the service, presided.

The financial statement showed a credit balance of £24 1s. 11d., £4 16s. 11d. of which was from collections allocated to the Bell Restoration Fund.

Officers elected were: Master, Mr. B. G. Burton; secretary and treasurer, Mr. G. E. C. Blake; committee members, Messrs. R. Hayden and K. C. S. Wood.

The Master proposed a vote of thanks to the Vicar for conducting the service and for the use of the bells, and to the organist.

Ringing was then resumed in the tower until 8.30 p.m. Methods rung included Bob Major, Kent, Double Norwich, Stedman Triples, Cambridge and Superlative.

## LETTERS TO THE EDITOR

### MR. FELSTEAD REPLIES TO HIS CRITICS

Dear Sir,—I know that it would probably be best to be like Brer Rabbit and 'lie low and say nuffin' but I think I ought to remind various critics of the following facts:—

(a) The present Methods Committee has never been asked for an opinion on Plain Bob Triples and, so far, has had nothing to do with this.

(b) We did not make the rule about irregular lead heads, we merely examined the position, as requested by the Council, and gave our opinion, which was accepted, that, on the whole, we felt that the existing rule be endorsed. It was pointed out that this result was arrived at by taking into account several factors (as I said in my last letter on the subject) and that there was no one firm reason for it. After all, judgments are usually made by weighing the pros and cons of a matter, for it isn't always that a clear cut decision can be made because of one predominant fact. (May I also stress, in connection with this, that two of the five on the committee have had more experience of Minor ringing than most of the critics.)

(c) This business of the Methods Committee wanting 'a rule changed to suit itself' and similar statements are quite ridiculous on examination. The only rules we have asked to be changed, I think, were some in connection with the preparation of a collection of Doubles methods, and these were of relaxation of rules to widen the possible field. But have we been thanked for this? No, we are still out to impose our will on Doubles ringers (I notice there has been complete silence about my mentioning about ten methods which have a plain course the same as Plain Bob!).

(d) As for imposing our views on the Council, there are five members of the Methods Committee. There are 150 members of the Council, of which about 120 are usually present at the Council meeting. It is not a very good compliment to about 115 other persons to suggest that they act as stooges to we five. I seem to remember that for several years the Council would not accept parts of our report on Extension, which hardly suggests it is in our pocket.

(e) Frankly I do not believe these sweeping statements that our views are those of a very small percentage of ringers. I should be interested to know on what grounds they are made. On the contrary, since our reports and recommendations have been accepted by the Council (which represents a far better cross-section of ringers than any with which our critics come into contact) I would say that they (the critics) were in the minority without any doubt whatever.

(f) It is rather typical of some people's wishful thinking when it is suggested that there is too much 'passive acceptance of the so-called recommendations put forward by the Standing and other committees of the Council.' As, I think, a member of the Council then, Mr. Bond will surely remember that of recent years business has been noteworthy for the quite frequent refusal of the Council to accept the Standing Committee's suggestions.

(g) In asking for specific reasons why the Methods Committee supported the retention of Plain Bob lead heads, critics should ask themselves why we follow any rules in ringing. I think it would be found that it is not possible to give a single good reason in support of anything we accept (e.g., why 5,000 changes for a peal?). On the other hand, if one of the present rules is thrown out, the process would not stop there and we should soon have chaos.

(h) Finally, since our organisation is a voluntary one, I should be rather interested to know what our critics think our motives are in all this if they are not, as they would seem

to suggest, the good of the Exercise in general. After all, as Mr. Martin kindly points out (and how nice to receive a pat on the back for once), many members of the Council are giving a lot of their spare time to its work, and it can hardly be dictated that they are deliberately trying to be dictators. What would be the point of it?—Yours sincerely,

K. W. H. FELSTEAD.

Southampton.

### INSPIRED BY OTHER ONE-ARM RINGERS

Dear Sir,—I would like to thank the many ringing friends who have written to me and made inquiries about me, also visited me in hospital since my recent unfortunate accident resulting in the loss of my left arm. I have been greatly cheered by them and am pleased to say I made a quick recovery. I am now out of hospital and feel quite fit and well in myself.

I even attended the annual meeting at Reading recently to try my luck at ringing with one arm, and successfully rang Stedman Cinques and Spliced Surprise Major. I have been greatly inspired by letters from one-armed ringing friends and I shall follow their example and continue my ringing in a moderate way.

Again thanking everyone for their kind thoughts for me.

REGINALD W. REX,

Thatcham.

### THE POPULARITY OF GRANDSIRE

Dear Sir,—Re Mr. Bond's letter in the issue of 'The Ringing World' dated February 11th about his statement of Grandsire Triples. I am open to gamble that if he took half the country he would find that Grandsire was and is still the most popular method rung by our Sunday Service ringers. Also, if he will read his 'Ringing World' and notice the quarter peals, 50 per cent. are in the Grandsire method. I am wondering if Mr. Bond has ever conducted a peal of Grandsire Triples. I can tell him it takes more to conduct than Plain Bob. What about Holt's Original? When I was a boy the local band (Milverton, Somerset), which was at that time one of the leading bands in Somerset in peal ringing, used Holt's Bob and Plain Leads Singles.

I have been ringing 50 years and I still enjoy ringing Grandsire Triples; it is a real odd-bell method. I still hope the Central Council will delete Plain Bob Triples, Caters and Cinques from their lists.—Yours faithfully,

WILLIAM A. J. KNIGHT.

Gillingham, Kent.

### R.A.F. RINGERS—AN APPEAL

Dear Sir,—I have been stationed here at Wallop for about ten months, and, up to now, I have not found another ringer in the camp, or, in fact, in any other camp where I have been stationed. I am sure that there must be many other National Service ringers stationed around Salisbury. If they are interested I should like to hear from them, so that we could arrange some practices together.

I am sure that local ringers and incumbents would co-operate, as I have always been made welcome at all the towers that I have visited for practices and Sunday ringing. May I say 'Thank you' to all of the ringers at those towers, especially to Mr. and Mrs. Joyner, of Rugeley, who were very kind to me whilst I was stationed at Hednesford, in Staffordshire, last year.—Yours faithfully,

2715671, L.A.C. ROGER J. FOX.

Room 1, Block 1,  
R.A.F., Middle Wallop,  
Near Stockbridge, Hants.

### LET THE INCUMBENT KNOW

Dear Sir,—The article on page 94 of your issue dated February 11th concerning a visit to St. Gabriel's, Westminster, refers to the Vicar being appalled at the condition of the bells. It also says that he had no idea of the poor state of affairs, but in this respect he is not unlike many other incumbents, who merely accept the fact that their church bells are rung on Sundays and on practice nights and take no interest in the bellringers whatever.

It is high time an effort was made by all ringers to see that their local incumbent is kept fully informed of their activities, or, better still, to invite him to be present whenever the bells are rung. Possibly in this way only can the gap be bridged, which undoubtedly exists between many ringers and their local incumbent, thus furthering the cause of change ringing for its true purpose—to remind parishioners that a service is soon to take place at their parish church—and to improve relations between the ringers, the church and, in particular, its congregation.

If our local incumbents are not kept in touch in this way, it is not really surprising that they are loath to spend any money on repairs or maintenance, even less so if they hardly ever see their ringers at any church services or functions. This dissociation between the clergy and ringers has often led to the stoppage of ringing, and hence the bells have fallen into disrepair, as is the case at the above-mentioned tower; then, when an attempt is made to form a new band, newcomers to the Exercise find it very difficult to handle the bells, and so they quickly lose interest. One can think of many—far too many—illustrations of such a situation, one of which it was the misfortune of the Ladies' Guild to come across.

Therefore, for the sake of the future of our noble Exercise, let us make a start now to interest all our clergy in our activities.—Yours sincerely,

IAN H. ORAM.

Lee, S.E.12.

### MUFFLED PEALS

Dear Sir,—Congratulations on the first of what looks to be a promising new series, 'Topic for the Month.' My first reaction to A. Y.-B.'s ideas was 'For the love of Mike don't make peal ringing easier—'The Ringing World' is already overloaded with peal records.' Dare one suggest smaller type?

I am quite sure that something should be done to prevent ringing from being a nuisance to anyone. From my own experience as a very mediocre ringer, and from what I have noticed of others, I think we can do with more practice rather than less and so I think that the only satisfactory answer to our problem is to have an arrangement whereby we can muffle the sound of the bells when we want to.

As a practical man, a carpenter, I am sure that this could be done in most cases by local labour, but we do need expert technical advice. There are many soundproofing materials on the market to-day, ranging from two-inch thick wood-wool boards for shutters to glass-wool or seaweed quilts which could be used as roller blinds. I am sure many of these materials have been tried, and advice could be obtained on the others from the manufacturers.

Here is where 'The Ringing World' can help by giving details of what has been done, what could be done and where advice can be sought, and promoting a general discussion on the technical side of the problem.—Yours faithfully,

E. F. FOSBERRY.

Horsham.

[Editorial Note.—A new edition of the Central Council's valuable publication 'Preservation and Repair of Bells' is now available, price 2s., from Miss P. J. Ayris, 10, Sherwood Close, Launton, Bicester, Oxon. This deals with the problems raised by our correspondent.]

## LETTERS—Continued

## DEMOCRATIC REPRESENTATION

Dear Sir,—I hasten to assure the Rev. R. D. St. J. Smith that I am as earnest a supporter of democratic principles as he is. That is why I desire to see Central Council representatives expressing the views of their members and not their own as individuals.

My contention is that our 'representatives' are delegates, though not so termed. Those elected by my own and many other Guilds and Associations receive payment for their services, and many ringers with whom I have recently discussed this matter agree with me that, should our representatives receive any reimbursement of expenses out of Guild funds, they are, strictly speaking, delegates and can, therefore, be instructed how to vote.

Mr. Smith points out that if we don't approve of our representatives' actions they can be replaced at the next election. Quite so, but that might permit them to do three years' untold harm in the meanwhile. Nevertheless I should be most reluctant to support any disciplinary action, such as withholding payment against a representative who, having been given a mandate, voted contrary to instructions.

One of our greatest difficulties is in knowing what guidance to give our representatives, as we are never furnished with the subjects and motions to be discussed at the Council meetings. Other national bodies take a referendum on important issues or send the resolutions to be discussed to their constituent organisations for their consideration. This is true democracy, and it is high time the Central Council reviewed its constitution so that its members do not find themselves suddenly confronted with important issues they have neither had time to consider, nor to place before the Association they represent. Until the present system is radically overhauled the ordinary ringer will not have proper representation, and I hope some Central Council representative will have the courage to raise this matter at Whitsun (or before).

Let me instance the new Doubles collection. We don't know whether it is to be presented this year, or when. If it is presented, will there be a proposal to delete all peals containing methods not in the collection? If it is merely presented to give the Exercise some methods worth ringing, then no harm will be done—a few may be sorry to see some of their favourite methods omitted—but it would be quite a different matter if only these were accepted by the Peals Analysis Committee! With the position so vague, what advice can any Association give its representatives? There should be no 'ifs'; they should know exactly what they are going to discuss and have been briefed by their Association beforehand. —Yours faithfully,

W. BIRMINGHAM

Slough.

## BOUQUET, NOT BRICKBAT

Dear Sir,—For many months now there have been many letters directed against the rulings of the Methods Committee of the Central Council, and especially against Mr. Felstead.

I do not agree with many of the decisions, but I should like to congratulate Mr. Felstead on the work being put in by recording the peals rung in the last 74 years. Most of the criticism is directed straight at Mr. Felstead, and I think this is quite unfair, as he is not the only member of the committee. If anyone is to be told it is the Council representatives who pass the rules.—Yours, etc.,

D. K. WALKLATE.

Derby.

## 'FURTHER OUTLOOK'

Dear Sir,—Whilst the point raised by Mr. Barnett in his letter 'Flower Names for Methods' is trivial (see page 11, January 7th, 1955), it leads to questions which concern the Exercise in general.

The method for which I proposed the name 'Daffodil Delight' has not even been rung yet. If and when it is rung, the band which rings the first peal should, by an unwritten law of the Exercise, be entitled to attach the label they choose. 'Daffodil' was recommended for the reasons given in my last letter; and in giving a name to any method before it is rung, my object is clearness of possible reference in future issues.

It seems that when following the 1920's controversy over flower names, Mr. Barnett has not realised that the Editor whom he quotes was exaggerating to emphasise his point. To use 'Onion,' 'Beefsteak' and 'Geranium' is obviously going a little too far; but there is no justification for rejecting the simpler names, such as 'Bluebell' and 'Daffodil.'

The important point I wish to raise, however, is, 'Why should the present age be subjected to rules made by the last and last-but-one generations, when revision of several of these rules could lead to real progress?' Certain aspects of ringing at present seem inclined towards a combination of out-dated and cumbersome ideas with a modern, slightly frustrated, slightly materialistic outlook.

Consider, for example, the rut of glamour into which peals of Surprise seem to have fallen. The air of shallowness associated with many of these peals is a reminder that there is a difference between stardom and greatness. Would it not be better to attempt a binding of some more ideas from the present age with the older, more human outlook? This appears to be part of the seed sown by Billy Graham and by those who made the films 'Lease of Life,' 'I Confess' and 'High Noon.' Perhaps the less-important rules of the Central Council would then be made a little more flexible. Some of them are at present as rigid and categorical as the conventions brought out by various conferences on scientific affairs. It we become any more pedantic we shall be tightening a noose around our own neck.

These, then, are some thoughts over which I have pondered during quite a period of time. Certain mistakes which I have referred to (directly or indirectly) are overdue for rectification. Others, such as the adoption of the Methods Committee's report on extension, are of more recent origin. But let us remember that to err is human, and those who never make mistakes never make anything. Moreover, let us have remedies in the not-too-distant future. Some bad wood will then be removed from the activities of the Central Council, and its mechanism will become less unwieldy in operation. More attention would then be devoted to the really important matters, whilst those who put in a good deal of work for the Council (and quite a number of members do) could become masters of their responsibilities instead of slaves to them.—Yours sincerely,

D. MOTTERSHEAD.

Wilmslow, Cheshire.

## PEALS AT ST. MARY REDCLIFFE

Dear Sir,—I am endeavouring to collate the peals rung at St. Mary Redcliffe, Bristol, and have all those recorded as having been rung for the Gloucester and Bristol Association.

I understand that a few have been rung for other Associations, Guilds or Societies, and would be grateful if the conductor or someone taking part or having knowledge would send me the particulars. Could you help?—Yours truly,

F. HANSFORD.

Nine, Sabrina Way,  
Stoke Bishop, Bristol 9.

## GUILDFORD DIOCESAN GUILD

## Chertsey District at Chobham

Ringling during the afternoon at the annual meeting of the Chertsey District, held at Chobham on February 5th, varied from rounds to Cambridge Surprise Major, with plenty of Grandfire for plenty of learners. The Guild's order of service was conducted by the Vicar, the Rev. O. R. Acworth, assisted by the curate, the Rev. P. A. Campbell. Tea was provided in the new Church Hall, which has only recently been constructed voluntarily by parishioners.

The Vicar regretted that he was unable to stay for the meeting, but left it in the capable hands of his curate.

Mr. R. Collins, of Chobham, became the new hon. District secretary, and Mr. J. King the new Executive Committee representative.

The District Ringing Master and auditor remain as last year, i.e., Mr. J. F. Dodson and Mr. W. Shepherd respectively.

Owing to the District secretary's absence the District Ringing Master presented the report and balance sheet, the latter showing a slight profit on the year's working.

In his report the Ringing Master stated that several towers in the District had many ringers who were not members of the Guild, and he also gave figures of attendances at six meetings that implied a serious state of apathy actually existed.

A vote of thanks to the ladies who provided the excellent tea, to the Vicar and curate and also the organist concluded the meeting.

Further ringing until approximately 8.30 p.m. included methods up to Double Norwich Major.

J. F. D.

## KENT COUNTY ASSOCIATION

## East Farleigh Receives £20

The meeting of the Maidstone District at East Farleigh on February 12th was well attended by ringers from all over Kent and visitors from Sussex. Although it was only a by-meeting ringers were attracted to East Farleigh because the bells had recently been rehung. Ringing commenced at 2.45, and at 4.15 a short service was attended.

Before tea in the Village Hall Dr. E. S. J. Hatcher, secretary of the Kent County Association, presented the Vicar with a £20 grant from the Kent County Association towards the cost of rehanging the bells.

After tea ringers returned to the belfry, where ringing continued in rounds and various methods from Plain Bob to Primrose Surprise until 9 p.m.

P. J. B.

## CAWTHORNE'S PEALS

Dear Sir,—I was very interested in the article on ringing at Cawthorne, Yorks, especially in the mention of the early peals on the bells. I wonder if Mr. Moxon knows the exact date of the first peal on the bells, rung by the Barnsley ringers? I should be grateful for the information if he does. I don't know whether the tower has kept a record of the peals rung. Nineteen have appeared in 'Bell News' and 'The Ringing World.' The first was a peal in 14 methods in 1883. All except two of the subsequent peals have been in seven methods and these two were the ones which 'broke the ice' after the last war—Oxford Minor in 1945 and Minor (three methods) in 1946. The next peal after 1883 was not until 1912. The third was in 1916. There were two in the 1920's and eight in the 1930's. The remaining six have come since 1945.—Yours sincerely,

K. W. H. FELSTEAD.

Southampton.

 (290) 56—56, 14, 56—56, 38, —14—, 58, 12, 36, 12, 78  
 (292) 56—56, 14, 56—56, 38, —14—, 58, 36, 12, 56, 78  
 (294) 56—56, 14, 56—56, 38, —34—, 38, —, 16, —, 58  
 (296) 56—56, 14, 56—56, 38, —34—, 58, —, 34, —, 58  
 (298) 56—56, 14, 56—56, 38, —34—, 58, 34, —, 34, 58  
 (300) 56—56, 14, 56—56, 38, 14—14, 38, —, 36, 14, 38  
 (302) 56—56, 14, 56—56, 38, 14—14, 58, —, 12, —, 58  
 (304) 56—56, 14, 56—56, 38, 14—14, 58, 12, —, 12, 58  
 (306) 56—56, 14, 56—56, 38, 14—14, 58, 14, —, 14, 58  
 (308) 56—56, 14, 56—56, 38, 14—14, 58, 14, 36, 12, 78

All the above have seconds place lead ends.

Methods Nos. 99, 101, 103, etc., to 309 are the 8th place variations of methods Nos. 98, 100, 102, etc., to 308 respectively.

Of these methods only the following have been previously published: (12) Essex; (25) Bristol; (34) Dunmow; (38) Dublin; (39) Double Dublin; (50) Reverse Dublin; (51) Southall; (76) Edmundsbury; (80) Premier; (82) Carlton; (100) Barnsbury; (104) Cray; (105) Norfolk; (106) Derwent; (107) Chelsfield; (126) Falmouth; (127) Cornwall; (135) Battersea; (147) Kenninghall; (182) Eardley; (183) Frodsham; (196) Boveney; (197) Brighton; (198) Ashted; (199) Shoreham; (202) Melbourne; (216) Delrow; (254) St. Blaise; (265) Byfleet; (278) Longton; (280) Cobham; (306) Albion; (176) and (177) are Tipler's C9/1.

I trust that the remaining 249 methods will prove useful. F. T. BLAGROVE.

## RANG IN 28 PEALS WITH SIR ARTHUR HEYWOOD

The peal at Barnby-in-the-Willows recorded this week was rung in honour of the 85th birthday of Mr. William Clarke, of 41, Gainsborough Drive, Newark.

Mr. Clarke must be one of the very few surviving ringers who rang with Sir Arthur Heywood in his heyday. Learning to ring at Duffield, his first peal was Bob Triples on September 13th, 1888.

In the next ten years he rang 35 peals, 34 were at Duffield, and 28 of which were conducted by Sir Arthur Heywood. These included 15 peals of Double Norwich Court Bob Major along with Grandsire and Stedman Triples and Caters, Double Oxford, Duffield, London and Superlative Surprise Major.

From Duffield he moved to Lincoln, where he rang peals at all the towers in the city. He was in the band which rang the first peal on the Cathedral bells after their restoration, and also on St. Botolph's when they were five and the first on the six.

Among other places of interest where he has rung peals include All Saints', Nottingham, St. Mary's, Nottingham, St. John's, Beeston, and the first peal (Stedman) on the bells at Harmston.

Last year along with two car loads of friends from the Newark district Mr. Clarke revisited the tower where he first learnt to ring, and he soon showed them that he had not lost any of his former style. His friends were amazed to see a photograph, including Mr. Clarke, of the band that rang a peal of London Surprise Major in 1891. His name also appeared on several peal boards around the ringing chamber.

On his birthday he attempted a quarter peal at his local tower, Winthorpe, where he still rings on Sundays, but owing to a very heavy cold, was unable to complete it; but he is still determined to ring one during this year. We all wish Mr. Clarke many happy returns, and the best of luck in his attempt to ring at least one more quarter peal.

W. L. E.

## GUILDFORD DIOCESAN GUILD Farnham Ran Social With Annual Meeting

There were about seventy ringers at the annual general meeting of the Farnham District of the Guildford Diocesan Guild, held at St. Andrew's Parish Church, Farnham, on February 12th. The shortened ringing time during the afternoon was under the leadership of Mr. E. J. Wells, Joint Ringing Master. A variety of methods was rung and enjoyed.

The ringers' service was conducted by the Rev. A. Wheeler with an informal address given by the new Rector of Farnham, the Rev. H. R. Wilds.

An excellent tea in the Owen Hall, Farnham, was followed by the business meeting. Mr. G. Grover, general secretary to the Guildford Guild, was in the chair. During the meeting new officers were elected for the coming year. Mr. E. J. Wells continues on his own as Ringing Master with Mr. Tom Page acting as his deputy. Mr. S. Joyce was re-elected secretary with Mr. R. Mills as assistant secretary and treasurer. Mr. S. Russell is the new representative to the Guild. The secretary's and treasurer's reports were read and adopted. The Joint Ringing Masters were able to report a successful year, with most towers able to 'hold their own.' Thirteen peals were rung during the year for the District, including a peal of Grandsire Triples at Worplesdon, conducted by Miss E. Turner, this being the first time a lady has conducted a peal for the Guildford Guild. Twenty-two new ringing members were elected.

The business matters settled, ringers and their friends were able to enjoy themselves at the very entertaining social evening, organised and run by Mr. C. W. Denyer.

M. A. C.

## OXFORD DIOCESAN GUILD Sonning Deanery Plans Seventy-Fifth Anniversary

The members of the Sonning Deanery Branch met in Wokingham on February 5th for their annual meeting. After some good ringing on the bells of All Saints' Church divine service was held at 4 p.m., conducted by the Rector. The sermon was preached by the Rev. C. H. Wilson, of Arborfield, and the lesson read by Mr. W. J. Brooks, vice-chairman of the branch.

About 52 members assembled in the Church House for tea, after which the business meeting was held, presided over by Archdeacon Shaw, branch chairman, and supported by Mr. F. Sharpe, Deputy Master of the Guild, Mr. W. Hibbert, general secretary, and branch officers.

No change was made in the officials of the branch for 1955, and the secretary reported steady progress during the past year. Seventeen new members were elected. Twyford was chosen as the venue of the summer meeting on June 4th with the usual combined practices on the first Saturday of each month.

It was announced that in May of this year the branch celebrates the 75th anniversary of its foundation, for in May, 1880, the old Sonning Deanery Society was formed in Wokingham. It is hoped that towers will arrange some special ringing in May to mark the event.

Mr. Sharpe in a short speech urged members to make an effort to attend the Guild Festival at Oxford, while the general secretary wished the branch continued success and paid a warm tribute to the former secretary, Mr. W. J. Paice, now ringing again after his serious illness.

## HERTFORD COUNTY ASSOCIATION

### Eastern District Ring By Candlelight

It was a sunny afternoon when the Eastern District held their annual meeting at Hertford on Feb. 5th. The eight bells at St. Andrew's Church were set going just after 3 p.m. and ringing continued until 4.30. There was then a short service conducted by the Rector. About 35 ringers sat down to a delicious tea provided by the ladies and a business meeting followed.

The party then moved to the ten at All Saints' Church to find all the lights out of action. Ringing took place throughout the evening with the aid of six candles. Methods rung ranged from rounds to Grandsire Caters.

# OBITUARY

## MR. ARTHUR RIDYARD

With deep regret we record the sudden death of Mr. Arthur Ridyard, of Manchester Cathedral, who passed away on Wednesday, January 19th, aged 67.

It was a request by Mr. Ridyard that his body be carried by the Cathedral ringers beneath the Cathedral bells whilst they were being rung half-muffled, and that the handbells be rung at the graveside.

The funeral was on January 24th. At the service in the Cathedral there were about 75 people present. The bearers were Messrs. B. Walshaw, H. Hollingsworth, H. Reynolds, R. Longden, W. Pye and G. Pye. The bells were rung in the traditional way of tittums and whole pull and stand by N. Lees, 1, A. Bennion 2, J. Simpkins 3, H. Lees 4, E. Reeves 5, D. Sanderson 6, W. Moss 7, P. Derbyshire 8, H. Longden 9, A. Ward 10. Other ringers at the service were: Mr. Arthur Tomlinson (vice-president of the Lancashire Association), Ex-Supt. R. Williams (Manchester City Police), R. Ravenscroft, Miss Mary Walshaw, F. Barraclough, G. Longden, Mr. Joseph Ridyard and Miss Margaret Ridyard (cousin and niece of Mr. Arthur Ridyard). The service was conducted by the Precentor (the Rev. Mr. Meggicks).

The interment took place at St. Peter's Church, Blackley, where homage was paid by Mr. Herbert Barlow, of Oldham (a very old friend of Mr. Ridyard) and Mr. John Muliner. A plain course of Grandsire Triples was rung on the handbells by G. Pye 1-2, A. Ward 3-4, W. Pye 5-6, Miss M. Walshaw 7-8.

Mr. Ridyard learned to ring in the year 1904, at the Church of St. Mark, Worsley. When he was married, in 1917, he went to ring at Manchester Cathedral. He joined the Lancashire Association in 1905 and rang 67 peals. Apart from these 67 he rang other peals for other Associations and Guilds. He had been Ringing Master at the Cathedral for the past ten years. During the 1914-18 war he was an R.S.M. in the Royal Army Medical Corps.

Mr. Ridyard was a well-known person at Messrs. Mather and Platt, Ltd., where he had worked for the past 42 years. He was a foreman over the crane drivers, slingers and maintenance department. Fifteen people represented the company at the funeral apart from two of the ringers who are also employed there.

## MR. REGINALD P. CRUMP

In the sudden death of Mr. Reginald P. Crump on February 1st, the Hornsey, Middlesex, band has lost a keen and valuable ringer. He died at the age of 28 after a short illness.

He started ringing in 1943 but it was only in the last six years that he did much ringing outside his own tower. He rang in several peals and it was through his efforts that the only two peals rung at Hornsey since the first world war were attempted.

Several of his colleagues attended the funeral on February 7th, and in the evening the bells were rung half-muffled. W. G. K.

## MR. NORMAN R. BAILEY

By the sudden passing of Mr. Norman R. Bailey on January 11th the Suffolk Guild lost one of its best-known and most respected ringers. A life member of the Norwich Association, for which he rang nearly 250 peals, he joined the Suffolk Guild of Ringers on its formation in 1923 and remained a keen and worthy supporter up till the time of his death.

Norman was the fourth in order of age in that wonderful family of eleven brothers, born and brought up in Leiston, Suffolk, where they all learned the noble art of change ringing. He commenced his peal ringing at the age of 17 with a peal of Bob Major, conducted by the late A. J. Lincoln, and rung on the tower bells

of his native town on November 5th, 1904. His dearest wish was fulfilled by commemorating the 50th anniversary of this with a peal of Surprise Minor at Blythburgh on November 6th, 1954, thus bringing his total number of peals, from Minor to Maximus, on tower and handbells, to nearly 400.

Among these were many of outstanding interest, but perhaps the peal of Bob Major rung at St. Margaret's, Leiston, on October 21st, 1911, with seven of his brothers, has received the greatest publicity. Another of worthy note was the longest length on these same bells, 11,040 of Double Norwich, rung on Whit Monday, 1909. He was also very proud of an excellent peal of Kent Maximus in which he struck the tenor superbly to that grand old twelve of Great Yarmouth.

For the last 35 years he had been ringing Master at SS. Peter and Paul's, Aldeburgh, where he taught many to acquire the art he loved so well. Although an expert in ringing and conducting the most intricate and difficult methods, he was ever ready to help a beginner through a peal, however simple the method. He was an excellent striker, insisting at all times on the 'open lead.'

Mr. Bailey was an engineer by trade and at the time of his death was a charge hand at the Richard Garrett engineering works, where he had been employed all his working life. He was a craftsman of the highest skill, greatly respected by the management and staff and admired by all his fellow workers. He was an acknowledged expert in first aid work, and in his younger days a keen and enthusiastic footballer.

Widely known over a very large area of East Anglia, his cheery smile and happy greetings will be greatly missed at ringing meetings in this part of the country, and his passing mourned by a very large circle of friends, whose sympathies are extended to his widow and family.

The funeral service at Ipswich on January 14th was attended by a representative gathering of ringers, including Charles J. Sedgley, the Ringing Master of the Suffolk Guild.

The church has lost an ardent worker and a very dear friend. J. P.

## MR. J. M. BAILEY'S 450 PEALS

When Mr. J. M. Bailey rang his 450th peal as a 65th birthday compliment to himself, he completed a list which was in many ways remarkable, not least from the fact that so many of his performances were rung entirely by himself and his brothers. By ringing the tenor for his 450th peal he had 'circled' Leiston tower 14 times. He also rang 50 consecutive Surprise peals on these bells.

### MR. BAILEY'S LIST

Minor.—Three methods 2 tower, seven methods 1 t, seven Surprise 2 t, Cambridge Surprise 1 t.

Grandsire Triples: 3 t.

Stedman Triples: 14 t, 9 hand (one to 7 h with brothers); Royal: 3 h (all with brothers); brothers); Stedman Cinques: 1 t, 2 h (2 h with brothers).
